Democratic Governance in Latin America Scott Mainwaring, Timothy R. Scully, 2009-11-24 Producing more effective governance is the greatest challenge that faces most Latin American democracies today a challenge that involves not only strengthening democratic institutions but also increasing governmental effectiveness Focusing on the post 1990 period this volume addresses why some policies and some countries have been more successful than others in meeting this dual challenge Two features of the volume stand out First whereas some analysts tend to generalize for Latin America as a whole this group of authors underscores the striking

differences of achievement among countries in the region and illustrates the importance of understanding these differences. The second feature is the range of expertise within the volume. In addition to the volume editors, the contributors are Alan Angell, Daniel Brinks, Fernando Henrique Cardoso, Jos de Gregorio, Alejandro Foxley, Evelyne Huber, Jos Miguel Insulza, Juliana Martinez Franzoni, Patricio Navia, Francisco Rodriguez Mitchell, Seligson, John Stephens, Jorge Vargas Cullell, and Ignacio Walker.

Constructing Democratic Governance Jorge I. Domínguez, Abraham F. Lowenthal, 1996-10. In *Constructing Democratic Governance*, Jorge I. Domínguez and Abraham F. Lowenthal bring together a distinguished group of scholars to assess how well democracy has been working in this volatile part of the world. The authors find that serious problems still plague these new democracies. Many of these problems are related to the political institutions, including political parties, the civil service, and the justice system. Part I introduces broad thematic surveys of such key issues as the role of the left, conservatism, inequality, and indigenous peoples. Part II reviews the South American nations. Part III focuses on Mexico, Central America, and the Caribbean, including Cuba. In Part IV, the volume editors draw conclusions about the problems and prospects for stable democracies in Latin America. In addition to the complete hardcover edition, *Constructing Democratic Governance* is available in three paperback volumes, each containing the introduction and conclusion from the complete edition and organized for convenient course use.

Presidents and Democracy in Latin America Manuel Alcántara, Jean Blondel, Jean-Louis Thiébault, 2017-09-07. This new textbook provides students with a comprehensive and accessible introduction to the presidents and presidential leadership in Latin America. Unlike other texts, *Presidents and Democracy in Latin America* integrates both political analysis and major theoretical perspectives with extensive country-specific material. Part One examines the developments in recent years in Latin American presidentialism and identifies different characteristics of society and politics which have influenced Latin American governments. The personalization of political life and of presidential government help to illustrate the character of Latin American politics, specifically on the type of political career of those who occupied the presidential office, the leadership style of these presidents, and the type of government which they led. Part Two studies two presidents in each of six countries in the region which reflect the broad trends in the political and electoral life: Argentina, Brazil, Chile, Colombia, Mexico, and Peru. Each case study first provides the biographical background of the president, it outlines the political career of the president both inside and outside of a party, including at the local level, the popularity of the president at the time of the presidential election is given, as well as the mode of selection of the candidates: selection by party leaders, only by party members, or by a primary. The relation of the president with the government or ministers, especially if there is a coalition government, is detailed. This textbook will be essential reading for all students of Latin American Politics and is highly recommended for those studying executive politics, political leadership, and the state of democratic governance in Latin America.
