CIVILIZATION AND ITS DISCONTENTS - Freud
 Sigmund Freud, 2024-02-09 Sigmund Freud 1856-1939 was an Austrian neurologist and important psychologist He is considered the father of psychoanalysis which significantly influenced contemporary social psychology In *Civilization and its discontents* Freud argues that civilization forces us to renounce the individual's instinctual pursuit of pleasure and aggression Religion and religious ideas help achieve this through taming human instinctual expression Certainly his interpretation contributes to the understanding of religious ideas and experiences and cultural and social development within a psychological perspective However his negation of the possibility of ultimate realities and his overly narrow focus on instinctual desire lead him to overlook the value of human religious lives Perhaps it is not the super ego that gives human the sense of guilt but the finitude of being that humans express Maybe it is not civilization that obstructs the individual's pursuit of happiness but the tendency of human beings to objectify everything In fact religion may be well suited to helping human beings overcome finitude and objectification *Civilization and Its Discontent* is considered one of Freud's most important and widely read works and was described in 1989 by historian Peter Gay as one of the most influential and studied books in the field of modern psychology

Civilization and Its Discontents Sigmund Freud, 2011 A translation of a 1929 text in which Freud summarized his views on culture from a psychoanalytic perspective *Freud's Theory of Culture* Abraham Drassinower, 2003 Abraham Drassinower takes a fresh look at Freud countering his prevalent image as a man pessimistically renouncing the possibility of social political and cultural change
