Cuba And The Missiles Crisis:

Cuba and the Missile Crisis Ralf Käck, 2011-11 Seminar paper from the year 1999 in the subject History Europe Germany Postwar Period Cold War grade 1 A University of Kassel FB 8 course The United States in the 1960s 28 entries in the bibliography language English abstract It might perhaps be correct to say that never in history has any historical event assembled such great importance in all of its aspects and been studied in such depth I believe that is fully understandable because never before had humankind been so close to the brink of nuclear holocaust This short statement by Oleg Troyanovsky reveals that the Cuban missile crisis is indeed one of the most studied subjects in U S and Cold War history Ever since the thirteen days in October 1962 there has been a lively discussion about the origins and the management of the crisis Despite an enormous range of opinions and an incredible output of books and articles by participants and scholars of the crisis most of the approaches were limited to studying the events from an American perspective However during the last decade the discussion has continued due to the declassification of secret American documents In fact it gained new speed after they became available for scholars to review One issue that has been heavily disputed since 1962 is the reason for the Soviet missile deployment to Cuba Even after more than 35 years it is unclear why Nikita Khrushchev ordered nuclear missiles to be sent to Cuba Even President John F Kennedy and his advisers in the Executive Committee ExComm could not agree on the reason for the missile deployment The official Soviet explanation states that the missiles were sent to defend Fidel Castro's revolution and to deter American aggression in Cuba However this theory has been vigorously dismissed as facesaving propaganda for the test of will theory which states that the Soviets wanted to probe America's resolve in Cold War politics I will show in this paper that Khrushchev did not send the m *Cuba and the Missile Crisis* Carlos Lechuga Hevia, 2001 No longer silenced by its ties to the Soviet Union Cuba now voices its sense of betrayal in the Khrushchev Kennedy deal In a postscript to the Missile Crisis story Lechuga describes a secret approach from Washington for a dialogue with Havana immediately prior to the assassination of President Kennedy Jacket **The Cuban Missile Crisis** Alice George, 2013-03-20 For thirteen days in October of 1962 a truly perilous flirtation with nuclear war developed between the United States and USSR as the superpowers argued over the installation of Soviet nuclear weapons in Cuba Launched by rash judgment and concluded through circumspect leadership the Cuban Missile Crisis acted as a catalyst for change during the Cold War Resolved through back channel negotiations the moment is popularly remembered as the closest the world has ever come to full scale nuclear war Using government memoranda personal letters and newspaper articles The Cuban Missile Crisis details the actual events of the political history while explaining widespread public response In six concise chapters Alice George introduces the history of Cold War America and contextualizes its political social and cultural legacy This will be a must read for anyone looking for an in depth summary of these important events For additional resources please visit the companion website at <http://www.routledge.com/cw/criticalmoments> **The Cuban Missile Crisis** Hourly

13 Days in October Howard Brinkley,2012-12-09 Never has the world come as close to the catastrophic destruction that nearly came to pass in October 1962 The United States and the Soviet Union uneasy allies in World War II but Cold War rivals after the defeat of Germany squared off over the discovery of Soviet nuclear missiles in Cuba This launched 13 days of tense negotiations between the two nations as both President John F Kennedy and Soviet Premier Nikita Khrushchev prepared for the possibility of nuclear war While neither man wanted a war and understood the potential consequences the situation was not merely in their hands Khrushchev faced pressure from Soviets to take a hardline stance against the U S while Kennedy faced the real possibility of a military coup if he did not follow the strong recommendations of his military advisors to destroy the missiles As Attorney General Robert Kennedy said The 10 or 12 people who participated in all these discussions were bright and energetic people We had perhaps amongst the most able in the country and if any one of a half a dozen of them were president the world would have been very likely plunged into catastrophic war Read more about the history of this short crisis in this book HistoryCaps is an imprint of BookCaps Study Guides With each book a brief period of history is recapped We publish a wide array of topics from baseball and music to science and philosophy so check our growing catalogue regularly to see our newest books

Reflections on the Cuban Missile Crisis Raymond Garthoff,2011-03-01 The Soviet response to the first edition of *Reflections* has been a prime example of the new openness under glasnost in discussing previously taboo subjects Using new revelations such as the fact that Moscow had twice as

many troops in Cuba as the Kennedy administration believed from key Soviet and Cuban Sources Garthoff has revised his earlier analysis to produce the most accurate eye opening story yet of the 1963 crisis In this book Raymond L Garthoff a participant in the crisis deliberations of the U S government reflects on the nature of the crisis it s consequences and it s lessons for the future He provides a unique combination of memoir historical analysis and political interpretations He gives particular attention to the aftermath and afterlife of the crisis and to its bearing on current and future policy In the first edition of the book in 1987 the Garthoff presented a number of facts for the first time Since then more information has become available particularly from Soviet sources in part from conferences in which Garthoff participated but even more from individual interviews and research This new information much of it presented here in this volume for the first time helps to fill in gaps in our knowledge about events and motivations on the Soviet side More importantly it enlarges our understanding of the crisis interaction
