Cultures of Piety Anne Clark Bartlett, Thomas Howard Bestul, 1999 Henry of Lancaster the Book of holy medicines M Teresa Tavormina The Middle English Pseudo Augustinian Soliloquies and its anti Wycliffite commentary Robert S Sturges The Gast of Gy Mona L Logarbo The privity of the passion Denise N Baker The fifteen oes Rebecca Krug Life of Soul Paul F Schaffner Symon Wynter the Life of St Jerome Claire Waters Appendix anthology of Middle English texts Manuscript Culture and Medieval Devotional Traditions Jennifer N. Brown, Nicole R. Rice, 2021 Essays exploring the great religious and devotional works of the Middle Ages in their manuscript and other contexts **The Cambridge Companion to Medieval English Mysticism** Samuel Fanous, Vincent Gillespie, 2011-05-12 This book is an excellent introduction to the individuals events and currents which shaped medieval English mystical texts *Nicholas Love's Mirror and Late Medieval Devotio-Literary Culture* David J. Falls, 2016-03-31 Surviving in 59 complete manuscript versions few English texts of the late medieval period seem to have achieved the popularity of Nicholas Love's fifteenth century translation and adaptation of the Latin *Meditationes Vitae Christi* The Mirror of the Blessed Life of Jesus Christ The Mirror has received surprisingly little scholarly attention and is often contextualized in terms of its role in the theological conflict between English ecclesiastical orthodoxy and the teachings of heresiarch John Wycliff David Falls presents a new account of the text's history which de centralises but does not disregard the influence of the Wycliffite controversy Falls interrogates preconceptions and investigates new possibilities for understanding the composition circulation function and use of Love's Mirror by examining both the textual modifications and additions made by Love in his adaptation of the Latin and places these alterations in context by examining individual copies of the Mirror The manuscript copies are read as both sites of literary consumption and nexuses of textual transition demonstrating that it was Love's ability to inscribe his work with functional diversity which explains the Mirror's popularity This book presents a nuanced picture not only of the Mirror's production circulation and function but also the dynamic and flourishing devotio literary culture of late medieval England in which Love's text operated

Medieval Conduct Literature Kathleen M. Ashley, 2009-01-01 Conduct literature is a term used to identify writings that address how one should conduct oneself in social situations In the medieval period conduct literature was essential reading for nearly all literate children and adolescents to educate them in the expected social behaviours for their culture gender and status Using a comparative approach this anthology pairs together pieces of male directed and female directed medieval conduct literature many being translated into English for the first time to present an illuminating picture of medieval gender norms parenting literary style and pedagogy Containing texts written in six vernacular languages each section is also accompanied by textual notes an introduction and an English translation A fascinating examination of a diverse range of regions and cultures Medieval Conduct Literature is a remarkable window into medieval life customs behaviour and social expectations Book Jacket *The Performance Tradition of the Medieval English University* Thomas Meacham, 2020-01-20

This is a truly paradigm shifting study that reads a key text in Latin Humanist studies as the culmination rather than an early example of a tradition in university drama. It persuasively argues against the common assumption that there was no drama in the medieval universities until the syllabus was influenced by humanist ideas and posits a new way of reading the performative dimensions of fourteenth and fifteenth century university education. In for example Ciceronian tuition on epistolary delivery David Bevington calls it an impressively learned discussion and commends the sophistication of its use of performativity theory.

A Companion to Middle English Prose Anthony Stockwell Garfield Edwards, 2004. The essays in this volume provide an up to date and authoritative guide to the major prose Middle English authors and genres. Each chapter is written by a leading authority on the subject and offers a succinct account of all relevant literary history and cultural factors that need to be considered together with bibliographical references. Authors examined include the writers of the Ancrene Wisse, the Katherine Group and the Wounges Group. Richard Rolle, Walter Hilton, Nicholas Love, Julian of Norwich, Margery Kempe, Sir John Mandeville, John Trevisa, Reginald Pecock and John Fortescue. The Chester Cycle in Context, 1555-1575 Jessica Dell, David Klausner, 2016-04-01. The Chester Cycle in Context 1555-1575 considers the implications of recent archival research which has profoundly changed our view of the continuation of performances of Chester's civic biblical play cycle into the reign of Elizabeth I. Scholars now view the decline and ultimate abandonment of civic religious drama as the result of a complex network of local pressures heavily dependent upon individual civic and ecclesiastical authorities rather than a result of a nation-wide policy of suppression as had previously been assumed.

A Scholarly Edition of Andrés de Li's Tesoro de la passion (1494) Laura Delbrugge, 2011-02-03. A Scholarly Edition of Andrés de Li's *Tesoro de la passion* 1494 is the first new edition of this early Castilian Passion text in five hundred years. Originally published in 1494 by the prolific Zaragoza printer Pablo Hurus, this beautifully illustrated devotional offers the modern reader a glimpse into the complex social world of late fifteenth century Spain. Li's converso identity permeates his retelling of the Passion through expositions on hypocrisy, anti-Semitism and false faith. This new modernized edition of the *Tesoro de la passion* dramatically illustrates the unique confluence of social, religious and cultural forces present during the emergence of Spain's national identity via analyses of the *Tesoro*'s Classical Castilian and Catalan sources, its importance as an early printed book, Li's portrayal of the Virgin Mary, Christ and the Passion events, and the importance of Li's converso perspectives throughout the work.

Translating the Middle Ages Karen L. Fresco, 2016-02-17. Drawing on approaches from literary studies history

linguistics and art history and ranging from Late Antiquity to the sixteenth century this collection views translation broadly as the adaptation and transmission of cultural inheritance The essays explore translation in a variety of sources from manuscript to print culture and the creation of lexical databases Several essays look at the practice of textual translation across languages including the vernacularization of Latin literature in England France and Italy the translation of Greek and Hebrew scientific terms into Arabic and the use of Hebrew terms in anti Jewish and anti Muslim polemics Other essays examine medieval translators views and performance of translation looking at Lydgate s translation of Greek myths through mental images rendered through rhetorical figures or at how printing transformed the rhetoric of intervernacular translation of chivalric romances This collection also demonstrates translation as a key element in the construction of cultural and political identity in the *Fet des Romains* and *Chester Whitsun Plays* and in the papacy s efforts to compete with Byzantium by controlling the translation of Greek writings
