

And $\frac{-3}{4} \times \frac{-5}{6} = \frac{5}{8}$

Therefore $\left(\frac{-3}{4} \times \frac{2}{3}\right) + \left(\frac{-3}{4} \times \frac{-5}{6}\right) = \frac{-1}{2} + \frac{5}{8} = \frac{1}{8}$

Thus, $\frac{-3}{4} \times \left\{\frac{2}{3} + \frac{-5}{6}\right\} = \left(\frac{-3}{4} \times \frac{2}{3}\right) + \left(\frac{-3}{4} \times \frac{-5}{6}\right)$

Distributivity of Multiplication over Addition and Subtraction.

For all rational numbers a , b and c ,

$$a(b + c) = ab + ac$$

$$a(b - c) = ab - ac$$

TRY THESE

Find using distributivity. (i) $\left\{\frac{7}{5} \times \left(\frac{-3}{12}\right)\right\} + \left\{\frac{7}{5} \times \frac{5}{12}\right\}$ (ii) $\left\{\frac{9}{16} \times \frac{4}{12}\right\} + \left\{\frac{9}{16} \times \frac{-3}{9}\right\}$

Example 3: Write the additive inverse of the following:

(i) $\frac{-7}{19}$

(ii) $\frac{21}{112}$

Solution:

(i) $\frac{7}{19}$ is the additive inverse of $\frac{-7}{19}$ because $\frac{-7}{19} + \frac{7}{19} = \frac{-7+7}{19} = \frac{0}{19} = 0$

(ii) The additive inverse of $\frac{21}{112}$ is $\frac{-21}{112}$ (Check!)

When you use distributivity, you split a product as a sum or difference of two products.

Example 4: Verify that $-(-x)$ is the same as x for

(i) $x = \frac{13}{17}$

(ii) $x = \frac{-21}{31}$

Solution: (i) We have, $x = \frac{13}{17}$

The additive inverse of $x = \frac{13}{17}$ is $-x = \frac{-13}{17}$ since $\frac{13}{17} + \left(\frac{-13}{17}\right) = 0$.

The same equality $\frac{13}{17} + \left(\frac{-13}{17}\right) = 0$, shows that the additive inverse of $\frac{-13}{17}$ is $\frac{13}{17}$

or $-\left(\frac{-13}{17}\right) = \frac{13}{17}$, i.e., $-(-x) = x$.

(ii) Additive inverse of $x = \frac{-21}{31}$ is $-x = \frac{21}{31}$ since $\frac{-21}{31} + \frac{21}{31} = 0$.

The same equality $\frac{-21}{31} + \frac{21}{31} = 0$, shows that the additive inverse of $\frac{21}{31}$ is $\frac{-21}{31}$, i.e., $-(-x) = x$.

Vedic Maths for 8th Class (Second Edition) Gaurish Borkar, 2017-10-13

Mathematics is a tricky subject. Those who love enjoy it much and those who don't feel it's boring. I lost interest in mathematics while in 7th class. Based on whatever I remember it was mainly due to a lack of understanding of negative numbers. By nature I am a kinaesthetic person and therefore I refuse to accept anything unless understood thoroughly. Generally just memorization doesn't work for me and the same thing happened about the multiplication of negative numbers. Our teacher presented them as rules and I refused to accept them at face value. One year later my cousin's grandfather started living with us and he had a great interest in teaching. Moreover his concepts in mathematics were extremely clear and he could answer all my crazy questions. This retriggered my interest in mathematics. The whole journey was so joyful that I wish everyone get a grandfather like him who is at home to help with fundamental questions in studies. When I started thinking about developing books as per the curriculum the next question was which board to follow. After a bit of research I got to know that CBSE is a most popular board in India and therefore I decided to develop Vedic Math books for the CBSE curriculum. Finally I had a choice of developing books from class I and I decided to develop the first book for class VIII. Class VIII is the foundation for board exams and therefore I felt this is the right time to start strengthening our

knowledge skills and abilities The book is designed in such a way that all required methods from Vedic math are covered here and the student need not refer to any other book to learn the basics Secondly numbers data are represented in pictorial format or charts wherever appropriate This certainly simplifies the learning I have explained principles wherever relevant This shall help the pupil to understand them further and apply them confidently All in 1 Guide Book: CBSE Class 10 for 2022 Examination Gurukul,2021-06-21 Benefit from Effective Practice Easy Revision for Class 10 CBSE Board Examinations 2022 with our All in 1 Guide Book Consisting of 6 subjects including English Language Literature Hindi A Hindi B Mathematics Science and Social Science Our handbook will help you study well and prepare at home with all the answers strictly based on marking scheme issued by Board Why should you trust Gurukul Books Oswal Publishers Oswal Publishers has been in operation since 1985 Over the past 30 years we have developed content that aids students and teachers in achieving excellence in education We create content that is extensively researched meticulously articulated and comprehensively edited catering to the various National and Regional Academic Boards in India How can you benefit from Gurukul All in 1 Guide Book for 10th Class Our handbook is a one stop solution for Class 10 CBSE students study requirements With multiple subjects in one book formulated chapterwise and categorywise also including NCERT Past Years Board Examination Papers Toppers s Answers our guide is a complete book you will need to prepare for 2022 board examinations Apart from study material and solved papers in 6 subjects our book is enriched with MCQs Probable Objective Type Questions to improve study techniques for any exam paper Students can create vision boards to establish study schedules and maintain study logs to measure their progress With the help of our handbook students can also identify patterns in question types and structures allowing them to cultivate more efficient answering methods Our book can also help in providing a comprehensive overview of important topics in each subject with Source based Case based Passage based and Picture based Questions making it easier for students to prepare for the exams *2024-25 CTET/TET Class VI-VIII Math & Science Solved Papers* YCT Expert Team , 2024 25 CTET TET Class VI VIII Math Science Solved Papers 752 1495 E This book contains the 71 sets of previous year s solved papers with 4262 objective questions *Vedic and Creative Math for 7th* Gaurish Borkar,2019-11-24 Mathematics is a tricky subject Those who love enjoy it much and those who don t feel it s boring I lost interest in mathematics while in 7th class Based on what I remember it was mainly due to lack of understanding of negative numbers By nature I am kinaesthetic person and therefore I refuse to accept anything unless understood thoroughly Generally just memorization doesn t work for me and the same thing happened about multiplication of negative numbers Our teacher presented them as rules and I refused to accept them at face value One year later my cousin grandfather started living with us and he had great interest in teaching Moreover his concepts in mathematics were extremely clear and he could answer all my crazy questions This retriggered my interest in mathematics The whole journey was so joyful that I wish everyone gets a grandfather like him who is at home to help with fundamental questions in studies Later when I was in 9th I

was introduced to Vedic Math by my close friend At that time I thoroughly enjoyed it and started using it to an extent where I completely forgot methods taught in the school Few years back I started taking courses in Vedic math and I repeatedly received questions about relevance of the course in school Even though these methods cannot be directly used in school today some of the methods are being included in school curriculum and therefore I decided to author books as per the curriculum While developing Vedic Math book for a particular class I realized that numbers being abstract it s also important to explain some of the concepts through art and craft Therefore I decided to also add Creative Math as a part of this book This is because learning is much more effective through Activities and Games for many When I started thinking about developing books as per the curriculum next question was which board to follow After a bit of research I got to know that CBSE is most popular board in India and therefore I decided to develop Vedic Math books for CBSE curriculum Finally I had a choice of developing books from class I and I decided to develop books for secondary school first I first published a book for class 8 and received very good response Therefore we released 2nd edition of Vedic Math for 8th Class Now I am pleased to release Vedic and Creative Math for 7th Class The structure of this book and sequence of CBSE syllabus is not the same and it is intentional The book is divided into three sections Section I is to learn basic principles section II is for application of principles and section III covers Creative Geometry Section I is mostly to explain the methods and it is important to refer section II to confirm that concepts are understood and ability to apply concepts is developed in pupils Section III mainly uses Creative Math to explain concepts of geometry It is fun to learn geometry in this manner rather than conventional method I have repeated some of the chapters from my book Vedic Math for 8th Class here and this is because your learning of next year gets covered 1 year sooner Additionally concepts of Vedic Math are easily expandable and it s easy to cover the whole concept rather than just a part of it The book is designed in such a way that all required methods from Vedic Math are covered here and the student need not refer to any other book to learn the basics Additionally numbers data are represented in pictorial format or charts wherever appropriate This certainly simplifies the learning Geometry is explained through activities and this makes the learning very simple and easy to retain I have explained principles wherever relevant This shall help the pupil to understand them further and apply them confidently In the curriculum of 7th class I have covered Bar numbers This is a very simple concept which eliminates the need of numbers greater than 5 and simplifies calculations This is also relevant when you know negative numbers Additionally I have also explained patterns in decimal numbers and usage of 9 in the context of decimals Vedic math treats decimals in a special manner This offers deeper understanding of decimals as compared to the curriculum The key focus of this book is Fractions Decimals and Integers Even though I have covered most of the syllabus in this book it does not cover whole syllabus 100% and this book has many additional things that are not part of the syllabus At a high level some of the concepts in solid shapes symmetry and practical geometry are not covered 100% and the students can learn them quickly based on their learnings from this book I am confident that this is fun and

joyful journey to all the students and their parents I wish you all the best for more love towards mathematics in general and Vedic Creative Math specifically **Competition Science Vision** ,2000-03 Competition Science Vision monthly magazine is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India Well qualified professionals of Physics Chemistry Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to the point study material for aspiring candidates The magazine covers General Knowledge Science and Technology news Interviews of toppers of examinations study material of Physics Chemistry Zoology and Botany with model papers reasoning test questions facts quiz contest general awareness and mental ability test in every monthly issue
