

Describe the arrangement of the keyboard

The Escape Key – at the top left corner of the keyboard, you will see a key labeled **Esc**. It allows you to quit/exit some of the tasks you are doing.

The **Function Keys** or **F** keys are lined along the top of the keyboard and labeled F1 through F12. These keys act as shortcuts, performing certain functions, like saving files, printing data, or refreshing a page. For example, the F1 key is often used as the default **help** key in many programs.

Tip:

Some character keys will only be obtained by selecting a modifier key.
e.g. Shift+2 = @

Alphabetic/Character keys – a character is a letter, number, punctuation mark or special symbol.

Space Bar – the space bar is the longest key on the keyboard. Press the space bar to insert a blank space after each character/word.

Modifier Keys – the **Caps Lock** and **Shift** keys are called modifier keys because they modify or change the function of the character keys. Modifier keys allow you to enter text in Initial Caps (Sunday) or all caps (SUNDAY). Modifier keys are commonly called second function keys.
