Charles X Jean Paul Clement:

Monsieur. Second Sons in the Monarchy of France, 1550-1800 Jonathan Spangler, 2021-11-28 For the first time this volume brings together the history of the royal spare in the monarchy of early modern France those younger brothers of kings known simply as Monsieur Ranging from the Wars of Religion to the French Revolution this comparative study examines the frustrations of four royal princes whose proximity to their older brothers gave them vast privileges and great prestige but also placed severe limitations on their activities and aspirations Each chapter analyses a different aspect of the lives of François duke of Alençon Gaston duke of Orléans Philippe duke of Orléans and Louis Stanislas count of Provence starting with their birth and education their marriages and political careers and their search for alternative expressions of power through the patronage of the arts architecture and learning By comparing these four lives a powerful image emerges of a key development in the institution of modern monarchy the transformation of the rebellious politically ambitious prince into the loyal defender even in disagreement of the Crown and of the older brother who wore it This volume is the perfect resource for all students and scholars interested in the history of France monarchy early modern state building and court studies

Sacral Kingship in Bourbon France Sean Heath, 2021-01-28 Historians of the ancien régime have long been interested in the relationship between religion and politics and yet many issues remain contentious including the question of sacral monarchy Scholars are divided over how and indeed if it actually operated With its nuanced analysis of the cult of Saint Louis covering a vast swathe of French history from the Wars of Religion through the zenith of absolute monarchy under Louis XIV to the French Revolution and Restoration *Sacral Kingship in Bourbon France* makes a major contribution to this debate and to our overall understanding of France in this fascinating period Saint Louis IX was the ancestor of the Bourbons and widely regarded as the epitome of good Christian kingship As such his cult and memory held a significant place in the political religious and artistic culture of Bourbon France However as this book reveals likenesses to Saint Louis were not only employed by royal flatterers but also used by opponents of the monarchy to criticize reigning kings What then does Saint Louis cult reveal about how monarchies fostered a culture of loyalty and how did sacral monarchy interact with the dramatic religious political and intellectual developments of this era From manuscripts to paintings to music Sean Heath skilfully engages with a vast array of primary source material and modern debates on sacral kingship to provide an enlightening and comprehensive analysis of the role of Saint Louis in early modern France

Internationalism and Its Betrayal Micheline Ishay, 1995 *Internationalism and Its Betrayal* was first published in 1995 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions A new world order proclaimed Western leaders after the cold war could extend liberal democracy and human rights around the globe Yet the specter of nationalism once again haunts the world threatening to extinguish the spirit of internationalism Although internationalism is typically understood to be diametrically opposed to nationalism Micheline Ishay argues to the contrary maintaining that internationalism often incorporates an individualist element that manifests itself as nationalism during critical periods such as war For example the new liberal internationalism invoked after the cold war is now revealing its limits as reflected by the

UN's inability to interfere promptly to stop ethnic and nationalist conflicts in Bosnia, Rwanda, and elsewhere. *Internationalism and Its Betrayal* explores the tensions and contradictions between ideas of nationalism and internationalism, focusing on the major political thinkers from the early modern period into the nineteenth century. Ishay examines the writings of Hugo Grotius, Rousseau, Kant, Paine, Robespierre, Burke, Fichte, de Maistre, and Hegel. She speaks to an audience of individuals interested in the spread of democracy, students of human rights and international relations, historians of the French Revolution, and political theorists.

Micheline Ishay was born in Tel Aviv and raised in Israel, Luxembourg, and Brussels, Belgium. She is currently assistant professor at the Graduate School of International Studies at Denver University, where she is also serving as director of the human rights program and executive director of the Center on Rights Development. She is coeditor of *The Nationalism Reader* (1994). Craig Calhoun is professor of sociology and history and director of the University Center for International Studies at the University of North Carolina at Chapel Hill. He is the editor of the *Contradictions of Modernity* series for the University of Minnesota Press.
