Dark Pool of Light: Consciousness in psychospiritual and psychic ranges Richard Grossinger, 2012 Explores and compares neuroscientific and philosophical views of reality and human consciousness Provided by publisher *Pluto* Richard Grossinger, 2015-03-24 Encompassing astronomy mythology psychology and astrology Pluto offers a wealth of knowledge about our most famous dwarf planet First observed in 1930 and once defined as the ninth and final planet in our solar system Pluto and its discovery and reclassification throw a unique light on how we generate meaning in science and culture This

anthology timed to appear in concordance with NASA's New Horizons's approach to Pluto in July 2015 shows that while the astronomical Pluto may be little more than an ordinary escaped moon or tiny Kuiper Belt object it is a powerful hyperobject for its mythological and cultural effigies on Earth incubate deep unconscious seeds of the human psyche. Certain astronomical features pertain to Pluto in terms of its distance from the Sun, coldness and barrenness. These also inform its mythology and astrology as befitting a planet named after the God of the Underworld. Among the issues central to this collection are the meanings of darkness, loss, grief, inner transformation, rebirth, reincarnation, and karmic revelation, all of which are associated with the astrology of Pluto. Pluto also embodies the meaning of true wealth as being nonmaterial essence instead of property, conventional accolades, ego identity, achievement. It is the marker of negative capability.

Dark Pool of Light: The crisis and future of consciousness Richard Grossinger, 2012 Explores and compares neuroscientific and philosophical views of reality and human consciousness. Provided by publisher [Dark Pool of Light, Volume Three](#) Richard Grossinger, 2012-12-18. In books like Embryogenesis and Embryos, Galaxies and Sentient Beings, author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied. The embryo is the universe writing itself on its own body. In Dark Pool of Light, his three volume series of books discussing the nature of reality and consciousness, Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence. In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to still subtler levels. Dark Pool of Light began unnamed in the journals of my psychic work with John Friedlander, says Grossinger, not so much a record of actual practices as insights from them and extensions out of them. This expansive inquiry into the nature of consciousness ends with this third volume in the series The Crisis and Future of Consciousness. Grossinger addresses the

perennial question of evil and shares the author's hopes and fears for the future of humanity While wisdom gleaned from such seemingly disparate sources as science philosophy religion and spirituality might appear very very different things Grossinger nevertheless finds their meeting place in subjective lived experience **Majesteria** Melanie
