Congress,1975 *The Moment of Self-Portraiture in German Renaissance Art* Joseph Leo Koerner,1993 So foundational is this invention to modern aesthetics Koerner argues that interpreting it takes us to the limits of traditional art historical method Self portraiture becomes legible less through a history leading up to it or through a sum of contexts that occasion it than through its historical sight line to the present After a thorough examination of Durer s startlingly new self portraits the author turns to the work of Baldung Durer s most gifted pupil and demonstrates how the apprentice willfully disfigured Durer s vision Baldung replaced the master s self portraits with some of the most obscene and bizarre pictures in the history of art In images of nude witches animated cadavers and copulating horses Baldung portrays the debased self of the viewer as the true subject of art The Moment of Self Portraiture thus unfolds as passages from teacher to student artist to viewer reception all within a culture that at once deified and abhorred originality **Twentieth Century** ,1917 The Nineteenth century and after London *The Nineteenth Century and After* ,1917
