Cput Applications For Admissions 2015:

Un renouveau du génie des procédés 1 Éric Schaer, Jean-Claude André, 2019-11-01 Apparu au début du siècle précédent le génie des procédés est devenu une discipline scientifique incontournable pour les industries de transformation de la matière et de l'énergie. Son succès ne se dément pas avec l'augmentation exponentielle des techniques et des innovations. Le développement rapide de nouvelles technologies comme l'intelligence artificielle ou de nouveaux besoins sociétaux de développement durable, réchauffement climatique, énergies renouvelables, environnement, etc. implique des évolutions qui doivent être prises en considération dans le renouveau industriel. Ce premier volume orienté vers les formations en génie des procédés montre que la disruption doit atteindre ce domaine pour qu'il dispose de cadres durables dans un monde fortement perturbé.

Glocal Theological Education Bård Norheim, Shantelle Weber, 2024-06-14 This book presents a vision for Glocal Theological Education: an invitation to rethink and reshape theological training in times of crisis. The aim is to train theological judiciousness: the ability to exercise sound judgment and practice discernment in the face of the different crises in the world of today like the climate crisis, the changed role of the church, and the challenge of youth citizenship. It explores what has been learned from developing shared global learning within the framework of local learning communities in Norway, South Africa, and beyond. The book also discusses key practices such as the combination of coteaching online and learning in local contexts and best practice research on other educational activities. Contributors also reflect more theoretically on where, how, and what we can learn from crisis and how these theoretical insights can help us shape theological leaders for the future who can read the times.

Unlocking the chains of knowledge Monwabisi K. Ralarala, Suren Pillay, Zannie Bock, Russell H. Kaschula, 2025-02-28 Unlocking the chains of knowledge: Understanding the challenges, remaking pedagogies, and curriculum renewal addresses the complex yet imperative task of reshaping the colonial legacy embedded within South African higher education and beyond. The book confronts the historical and ideological bindings that have entrenched European-centric knowledge within the fabric of academia in Africa, propelling a transformative journey within the Arts and Humanities. At its core, this work presents a tripartite focus: firstly, understanding the deep-seated issues ingrained in the traditional university structure; secondly, remaking pedagogical practices; and lastly, renewing the curriculum. Recognising the historical dominance of Eurocentric ideas, the book explores various movements, theories, and practices from negritude to postcolonial theory, aiming to emancipate and amplify the voices and knowledge of those historically excluded. With a commitment to a pluralistic approach, the book scrutinises the power dynamics of language, the importance of diverse perspectives, and the challenging task of inclusion without replicating the divisive structures of the past. Prof. Christine Winberg, Research Chair in Work Integrated Learning, Cape Peninsula University of Technology. In *Unlocking the chains of knowledge: Understanding the challenges, remaking pedagogies, and curriculum renewal*, the editors provide a decisive and detailed reflection and profound understanding of the complexities of knowledge generation in Southern Africa. Unlike many volumes that address these intricate

complexities this volume not only navigates the intricate complexities of the long history of epistemic injustices and intolerance in the Southern African higher education environment but delves deeper into the core of what is required for curriculum transformation and renewal The groundbreaking volume addresses the urgent need for linguistic inclusivity consciousness about decoloniality as well as embedding social justice in South African and Zimbabwean education and by doing so presents strategies that can be used by the rest of the African continent in addressing the scourge of coloniality Prof Pamela Maseko Executive Dean Faculty of Humanities Nelson Mandela University *Proceedings of the 7th International Conference on Business and Finance* Michael Twum-Darko, Izienné Loriston, Lisa Seymour, Noleen Miller, Rozenda Hendrickse, Christiana O.
