StudySync Quick Guide

Stories

- **Reading Time:** 10-15 minutes
- **Purpose:** Provide a brief overview of a topic. Students explore texts to make connections that can be used for research. Students practice understanding context and analyzing a short document that covers their reading.
- **How To Think:** How does this text give us an engaging interest about the unit and what are its main points? After students are told about the topic in short pieces, and then they explore about the short period in 1-2 complete sentences.
- **Strategy:** Students grade texts out of a total of 3 points and select students who 1 attempt to complete the task.

First Reads

- **Reading Time:** 20-30 minutes
- **Purpose:** Students read texts in a short story, poem, and fiction article, etc. The goal is to understand the text before knowing the full extent of the story, conflict, plot, characters, etc. One of the available options will allow 2-4 questions to assign to students. Students learn to read paragraph form.
- **How To Think:** It begins by playing the introduction video of the unit. Then, as a whole group, students share on the one video they watch of the text. (Again, the video is told through the text. Study Sync will be key skills to focus on as in the past week (generators, text sets, literary elements, etc.) and give them the first questions in the end of the text. There are usually 10-15 short answer questions and 10 multiple choice questions (or 10 multiple choice questions and 10 short answer questions). If we have a higher level, I will increase all 1 multiple choice questions to 10. I require my students to respond to short answer questions in paragraph form. At the beginning of their text, I spend time modeling the skill and my students are capable of doing this independently. Students that create a text set including a research paper for their text and some support. Study Sync has text sets for many books that can be used to help with this.
- **Strategy:** I usually give First Reads out of a total of 10 points. After the initial introduction, I give students feedback and allow them to do their own work for a second design.

Skills

- **Reading Time:** 10-15 minutes
- **Purpose:** Students analyze the First Reads and create a plan to understand. Students find key reading skills that will help them better understand this specific text and can be applied to future reading beyond the assignment.
- **How To Think:** How does this skill in a story, conflict, text set, etc. and then students are given the opportunity to practice it. Students answer 1 question in the First Reads section. I generally will give students 1-4 questions to answer these questions, and then I will allow them to create their own text set.
- **Strategy:** Students grade Skills out of a total of 3 points, based on student progress on the First Reads section.
