Jenks, Daniel Kozak, Pattaranan Takkanon, 2013-12-02 This book presents new research and theory at the regional scale showing the forms metropolitan regions might take to achieve sustainability At the city scale the book presents case studies based on the latest research and practice from Europe Asia and North America showing how both planning and flagship design can propel cities into world class status and also improve sustainability The contributors explore the tension between polycentric and potentially sustainable development and urban fragmentation in a physical context but also in a wider cultural social and economic context *Planning Sustainable Cities* Un-Habitat, 2016-05-13 Current urban planning systems are not equipped to deal with the major urban challenges of the twenty first century including effects of climate change resource depletion and economic instability plus continued rapid urbanization with its negative consequences such as poverty slums and urban informality These planning systems have also to a large extent failed to meaningfully involve and accommodate the ways of life of communities and other stakeholders in the planning of urban areas thus contributing to the problems of spatial marginalization and exclusion It is clear that urban planning needs to be reconsidered and revitalized for a sustainable urban future *Planning Sustainable Cities* reviews the major challenges currently facing cities and towns all over the world the emergence and spread of modern urban planning and the effectiveness of current approaches More importantly it identifies innovative urban planning approaches and practices that are more responsive to current and future challenges of urbanization *The Global Report on Human Settlements* is the most authoritative and up to date global assessment of human settlements conditions and trends It is an essential reference for researchers academics public authorities and civil society organizations all over the world Preceding issues of the report have addressed such topics as *Cities in a Globalizing World* *The Challenge of Slums* *Financing Urban Shelter* and *Enhancing Urban Safety and Security*
