City Louisville Glimpse Kentucky:

Men Who Built Louisville, The: The City of Progress in the Gilded Age Bryan S. Bush, 2019 From 1870 to 1900 Louisville became a larger part of the American Industrial Revolution The expansion of railroads was a key factor to becoming a center for industry trade and commerce Paul Jones Jr helped the city become a world leader in bourbon production and Louisville was the largest tobacco manufacturer due to successful brokers like Andrew Graham John Leather's jean cloth facility was among the most productive in the world The largest box factory also resided in the city and Louisville became the banking capital of the South Author Bryan S Bush details those behind the massive industry in the City of Progress **Kentucky Illustrated** Martin F. Schmidt, 2014-07-15 Kentucky Illustrated brings together a substantial portion of the pictorial scenes published during Kentucky's first century many of them rare prints reproduced here for the first time since their original publication From the frontier days of Daniel and Squire Boone to the rise of the railroads that opened the state to visitors who toured its landmarks and bathed in its springs more than two hundred views offer a picture of Kentucky's growth and civilization Until the 1890s Kentucky was sketched in the words of adventurers travelers and journalists but all most Americans knew of the face of Kentucky was the occasional engraving that appeared in popular publications such as Harper's Weekly and Scribner's Monthly The camera was not widely used and photographs could not yet be reproduced for mass distribution so each illustration was captured by an artist and translated by an engraver before it reached the imagination of the viewer Readers will enjoy chapters on the frontier the Civil War education and religion urban and rural life making a living the natural world and roads rivers and rails State historian James C Klotter provides an overview of Kentucky history that enhances the illustrations and Joe Nickell's description of early print methods allows readers to appreciate fully the art form as it was practiced in the nineteenth century Captions include both historical background and information on artists lithographers and printers This handsome collection of rare early views will delight all Kentuckians as well as historians teachers librarians and students *George Keats of Kentucky* Lawrence M. Crutcher, 2012-11-30 John Keats's biographers have rarely been fair to George Keats 1797 1841 pushing him to the background as the younger brother painting him as a prodigal son or labeling him as the business brother Some have even condemned him as a heartless villain who took more than his fair share of an inheritance and abandoned the ailing poet to pursue his own interests In this authoritative biography author Lawrence M Crutcher demonstrates that George Keats deserves better Crutcher traces his subject from Regency London to the American frontier correcting the misconceptions surrounding the Keats brothers relationship and revealing the details of George's remarkable life in Louisville Kentucky Brilliantly illustrated with more than ninety color photographs this engaging book reveals how George Keats embraced new business opportunities to become an important member of the developing urban community In addition *George Keats of Kentucky* offers a rare and fascinating glimpse into nineteenth century life commerce and entrepreneurship in Louisville and the Bluegrass *Kentucky Countryside in Transition*

Stephanie Bower,2024-01-12 Kentucky Countryside in Transition charts the rise of the American middle class at the turn of the twentieth century by examining the migration from the Kentucky countryside to the city and subsequently the suburbs of Louisville The formation of the middle class in Louisville was fostered by two factors a boom in white collar employment and the electric streetcar an innovation that fundamentally changed the urban landscape Ultimately a narrative of industrialization and modernity this study focuses on a group of forty two families who lived at the end of the Broadway Trolley line in an area that came to be known as the Cherokee Triangle This suburban neighborhood was dominated by white collar commuters who were driven to Louisville by a desire to get ahead but continued to embrace a nostalgia for country life In this meticulous three generation study Stephanie Bower follows this group of families as they make the transition from rural farmers and cultivators to city laborers and white collar workers By mining census records city directories and county records Bower carefully reconstructs the biographical details of residents in an effort to paint a picture of life in this streetcar suburb during this important period of transformation Regional studies of the middle class during this pivotal era are often overlooked in contemporary scholarship Consequently this analysis will be of interest to those researching Louisville middle class formation and suburbanization as well as to local genealogists tracing their family histories Stephanie Bower is professor emeritus of history at the University of Indiana Southeast She is the author of Famism The Impact of Demographic Factors on Family Structure and her articles have appeared in Hispanic American History Review The Americas LOCUS and Historical Methods

Kentucky in the Nation's History Robert McNutt McElroy,1909 In the preparation of the present volume I have studied the local collections from the point of view of one primarily interested in the nation Such local events as have had a distinctly national influence as well as such national events as have particularly affected local conditions have been my concern A typical example of the first is presented in the Kentucky Resolutions of 1798 and of the second in the purchase of Louisiana
