Confederate Cavalryman 1861-65 Philip Katcher, 2002-06-25 The southerner of the mid 19th century had been bred to ride horses In addition the period southerner had long been used to handling firearms through hunting for pleasure food or simply for sport The combination of these factors promised that when the southern states began to secede in December 1860 the cavalry would be a major combat arm This title looks at how the men of the Confederate cavalry were recruited trained lived and fought during the Civil War 1861-65 Both routine and campaign life are covered as well as the weapons and equipment that served them in their combat roles Key encounters such as the 1863 clash at Brandy Station are also covered in this authoritative text

Union Cavalryman 1861-65 Philip Katcher, 2013-10-20 The bombardment by Confederate artillery of Fort Sumter on 12 April 1861 was the spark that finally ignited the American Civil War quickly bringing thousands of eager volunteers for the Union cause It proved especially easy to raise cavalry since recruits naively believed that their military duties would be easier than in the infantry This book investigates all aspects of the life and experiences of a Union trooper covering enlistment training uniforms weapons cavalry tactics and the discrepancy between the recruit's view of swashbuckling charges and heroic hand to hand combat and the less glorious reality

Apache Warrior vs US Cavalryman Sean McLachlan, 2016-08-25 From the 1840s onward United States military forces clashed with the Apache a group of Native American peoples associated with the southwestern part of North America US territorial expansion and conflict first with Mexico and then during the Civil War led to an escalation of hostilities that culminated in the defeat of the Apache leader Geronimo in 1886 although fighting continued into the 20th century In this study the clashes at Cieneguilla 1854 First Adobe Walls 1864 and Cibecue Creek 1881 are assessed in detail Fully illustrated and featuring contemporary accounts and specially commissioned artwork this history examines exactly how the Apache were able to pose such a grave threat to US forces and how their initial advantages were gradually negated by the cavalry Examining the tactics equipment and training available to each side over four decades of evolving conflict this is an eye opening combatant's eye view of one of history's most intriguing campaigns

Confederate Artilleryman 1861-65 Philip Katcher, 2001-08-25 In the heady days of the rush to arms in 1861 comparatively few Southern men volunteered for service in the artillery most preferred the easily accessible glory of the infantry or cavalry Yet those that did quickly earned the respect of their fellow soldiers and a reputation for being able to pull through deeper mud ford deeper springs shoot faster swear louder than any other class of men in the service during the American Civil War 1861-1865 Given that field artillery was invariably deployed in front of the troops that it was supporting the artillerymen were exposed to a high level of enemy fire and losses were significant This title guides the reader through the life and experiences of the Confederate cannoneer where he came from how he trained and lived how he dressed ate and was equipped and how he fought
