Accountability, International Business Operations and the Law Liesbeth Enneking,Ivo Giesen,Anne-Jetske Schaap,Cedric Ryngaert,Francois Kristen,Lucas Roorda,2019-12-05 A consensus has emerged that corporations have societal and environmental responsibilities when operating transnationally However how exactly corporations can be held legally accountable for their transgressions if at all is less clear This volume inquires how regulatory tools stemming from international law public law and private law may or may not be used for transnational corporate accountability purposes

Attention is devoted to applicable standards of liability institutional and jurisdictional issues and practical challenges with a focus on ways to improve the existing legal status quo In addition there is consideration of the extent to which non legal regulatory instruments may complement or provide more viable alternatives to these legal mechanisms The book combines legaldoctrinal approaches with comparative interdisciplinary and policy insights with the dual aim of furthering the legal scholarly debate on these issues and enabling higher quality decision making by policymakers seeking to implement regulatory measures that enhance corporate accountability in this context Through its study of contemporary developments in legislation and case law it provides a timely and important contribution to the scholarly and sociopolitical debate in the fastevolving field of international corporate social responsibility and accountability *Women, Crime, and Justice* Elaine Gunnison, Frances P. The Politics of Imprisonment Vanessa Barker, 2009-08-26 The attention devoted to the unprecedented levels of imprisonment in the United States obscure an obvious but understudied aspect of criminal justice there is no consistent punishment policy across the U S It is up to individual states to administer their criminal justice systems and the differences among them are vast For example while

some states enforce mandatory minimum sentencing some even implementing harsh and degrading practices others rely on community sanctions What accounts for these differences The Politics of Imprisonment seeks to document and explain variation in American penal sanctioning drawing out the larger lessons for America's overreliance on imprisonment Grounding her study in a comparison of how California Washington and New York each developed distinctive penal regimes in the late 1960s and early 1970s a critical period in the history of crime control policy and a time of unsettling social change Vanessa Barker concretely demonstrates that subtle but crucial differences in political institutions democratic traditions and social trust shape the way American states punish offenders Barker argues that the apparent link between public participation punitiveness and harsh justice is not universal but dependent upon the varying institutional contexts and patterns of civic engagement within the U S and across liberal democracies A bracing examination of the relationship between punishment and democracy The Politics of Imprisonment not only suggests that increased public participation in the political process can support and sustain less coercive penal regimes but also warns that it is precisely a lack of civic engagement that may underpin mass incarceration in the United States
