Anticorruption in History Ronald Kroeze, André Vitória, Guy Geltner, 2018 Anticorruption in History is a timely and urgent book corruption is widely seen today as a major problem we face as a global society undermining trust in government

and financial institutions economic efficiency the principle of equality before the law and human wellbeing in general Corruption in short is a major hurdle on the path to Denmark a fated blueprint for stable and successful statebuilding The resonance of this view explains why efforts to promote anticorruption policies have proliferated in recent years But while the subject of corruption and anticorruption has captured the attention of politicians scholars NGOs and the global media scant attention has been paid to the link between corruption and the change of anticorruption policies over time and place with the attendant diversity in how to define identify and address corruption Economists political scientists and policy makers in particular have been generally content with tracing the differences between low corruption and high corruption countries in the present and enshrining them in all manner of rankings and indices The long term trends potentially undergirding the position of various countries plays a very small role Such a historical approach could help explain major moments of change in the past as well as reasons for the success and failure of specific anticorruption policies and their relation to a country s image of itself or as construed from outside as being more or less corrupt It is precisely this scholarly lacuna that the present volume intends to begin to fill The book addresses a wide range of historical contexts Ancient Greece and Rome Medieval Eurasia Italy France Great Britain and Portugal as well as studies on anticorruption in the Early Modern and Modern era in Romania the Ottoman Empire the Netherlands Germany Denmark Sweden and the former German Democratic Republic

Political Parties, Business Groups, and Corruption in Developing Countries Vineeta Yadav, 2011-05-12 Political corruption is one of the globe s most pressing yet seemingly permanent problems It is a root cause of low growth and inequality and plagues numerous nations throughout the world in varying degrees In Political Parties Business Groups and Corruption in Developing Countries Vineeta Yadav tackles the puzzle of corruption by analyzing the role that business lobbying plays in it She shows that the structure of a developing nation s legislative institutions frequently determines whether such institutions promote or restrain corruption Combining focused studies of legislative institutions and business groups in India and Brazil with a broader survey of corruption in sixty four developing democracies Yadav shows how systems with powerful parties rather than ones with powerful individual legislators encourage the most corruption A rigorous comparative examination of the connections between political institutions lobbying and corruption this work will reshape our understanding of how developing country democracies can both discourage and encourage bribery vote buying and influence peddling

Centrist Anti-Establishment Parties and Their Struggle for Survival Sarah Engler, 2023-10-18 How do parties survive when newness is their only selling point This scholarly volume explores the most successful group of new political parties in Central and Eastern Europe centrist anti establishment parties CAPs These parties often claim to be neither left nor right strongly criticize the political establishment and instead promise corruption free politics Initially extremely successful many CAPs do not survive more than a few consecutive elections while others do endure As the first book length study on this type of party Sarah Engler explores this question and focuses on CAPs electoral strategies after their first elections It derives three strategies of survival that lead to more sustainable electoral support a reframed protest strategy an anti corruption strategy and a mainstream strategy Combining quantitative data from an original expert survey with qualitative evidence from elite interviews with MPs party officials and anti corruption experts the author demonstrates that CAPs only survive when they abandon their initial strategy of pure protest While strategic change is necessary for party survival several failed attempts at transformation show that it is not sufficient Ideology seemingly irrelevant to CAPs initial successes eventually determines CAPs fates Engler also examines how these findings have implications for other European countries

Prime Ministers and Party Governments in Central and Eastern Europe Florian Grotz, Marko Kukec, 2023-09-19 This book focuses on Prime Ministers PMs in the post communist democracies of Central and Eastern Europe CEE It shows how the survival of PMs in chief executive office depends on their interrelations with other actors in three different arenas The first arena encompasses the linkages between PMs and their parties In this respect being a party leader is a major power resource for PMs to retain office even under critical circumstances At the heart of the second arena is the PMs relationship to other parliamentary parties In this regard the high fragmentation and fluidity of many post communist party systems pose enormous challenges for PMs to secure

constant parliamentary support In the third arena PMs are confronted with state presidents Given their relatively strong powers in most CEE countries presidents may use their constitutional powers to interfere in the political domain of PMs and thus jeopardise the stability of party governments The book offers new evidence on these relationships from case studies and a broader comparative perspective This volume will be of great use to students and researchers interested in comparative politics and government European studies as well as political leadership The chapters in this book were originally published as a special issue of East European Politics and are accompanied by a revised introduction and a new conclusion
