Coptic Icon Drawings:

Coptic Art and Culture, 1990, **The Dawn of Christian Art in Panel Paintings and Icons** Thomas F. Mathews, Norman E. Muller, 2017-02-01 Staking out new territory in the history of art this book presents a compelling argument for a lost link between the panel painting tradition of Greek antiquity and Christian paintings of Byzantium and the Renaissance While art historians place the origin of icons in the seventh century Thomas F Mathews finds strong evidence as early as the second century in the texts of Irenaeus and the Acts of John that describe private Christian worship In closely studying an obscure set of sixty neglected panel paintings from Egypt in Roman times the author explains how these paintings of the Egyptian gods offer the missing link in the long history of religious painting Christian panel paintings and icons are for the first time placed in a continuum with the pagan paintings that preceded them sharing elements of iconography technology and religious usages as votive offerings Exciting discoveries punctuate the narrative the technology of the triptych enormously popular in Europe traced by the authors to the construction of Egyptian portable shrines such as the Isis and Serapis of the J Paul Getty Museum the discovery that the egg tempera painting medium usually credited to Renaissance artist Cimabue has been identified in Egyptian panels a millennium earlier and the reconstruction of a ring of icons on the chancel of Saint Sophia in Istanbul This book will be a vital addition to the fields of Egyptian Graeco Roman and late antique art history and more generally to the history of painting *Library of Congress Subject Headings* Library of Congress, Library of Congress. Takla, 2017-08-31 Christianity and monasticism have long flourished in the northern part of Upper Egypt and in the Nile Delta from Beni Suef to the Mediterranean coast The contributors to this volume international specialists in Coptology from around the world examine various aspects of Coptic civilization in northern Egypt over the past two millennia The studies explore Coptic art and archaeology architecture language and literature The artistic heritage of monastic sites in the region is highlighted attesting to their important legacies **The Ancient Coptic Churches of Egypt** Alfred Joshua Butler, 1884 *bibliotheca alexandrina* zahi hawass, 2002 Bibliotheca Alexandrina **Art, Power, and Resistance in the Middle Ages** Pamela A. Patton, 2025-01-07 This volume addresses a vital point of intersection between images in the Middle Ages and those in the modern world the potential of medieval works of art to convey messages of power and resistance Provoked by the misuse of medieval imagery in modern discussions the contributors to this volume assess how medieval images connect to discourses of power in both the past and the present The contributors each began with a single question In the eyes of

their makers and viewers how were medieval images understood to assert or to resist forces of power Their case studies come from a wide range of cultural geographic and historical contexts the Byzantine Ottonian and Valois courts the Umayyad and Castilian regimes of the Iberian Peninsula the pluralistic military and commercial zones of the eastern Mediterranean and the metaphorical as well as personal battlegrounds linked to medieval courtly love culture Over eight chapters the authors highlight patterns of visual rhetoric still evident in art today They invite readers to contemplate how modern priorities and sensibilities might amplify mute or transform the discourses related to power and resistance that were threaded through the visual culture of the Middle Ages This insightful book should be of value to anyone interested in medieval art history and art s relationship to power and authority in society In addition to the editor the contributors include Heather A Badamo Elena N Boeck Thomas E A Dale Martha Easton Eliza Garrison Anne D Hedeman Tom Nickson and Avinoam Shalem
