The Guide for the Core Surgical Interview Core Surgical Training

Core Surgical Training in the UK is a two year programme designed to provide junior surgeons with general operative skills, clinical experience of both acute and ward based surgical care, and to introduce trainees to a range of sub-specialities. By the end of CT2 you will have completed 24 months in surgery, a prerequisite for progression to ST3 level.

The structure of training varies throughout the country but normally comprises of 4 or 6 month rotations. These are themed in some deaneries such as in Manchester where a core trainee will do around 18 months of one speciality and 6 months of another, or varied, like in London where you do 4 month rotations in CT1 and then two 6 month rotations in CT2, one of which will be the sub-speciality of your choice.

At the end of Core Training you apply to Speciality Training, ST3-ST8, which leads to a Certification of Completion of Training (CCT), allowing you to become a Consultant.

Ranking for your CT1 job matters. If you get a high enough rank to be given 2 or 3 of the sub-specialities of your choice, or indeed the themed job of your choice, then you are setting yourself up with a great chance at that ST3 number. If you just scrape into core training then you have to take what you are given, and may not be able to do your chosen

Competition

specialty before ST3 interviews. Clearly you would be at a disadvantage to the candidate above who has already got 6 months of experience and project completion. This is why we encourage all applicants to put every effort into preparing for the interviews. It may be too late now to publish another paper, but it is not too late to polish your interview technique, and read up on the topics commonly asked. The Core Surgical Interview Guide aims to make this process easier for you by providing a structure with which you can answer questions, through in depth discussion of the questions that we were asked over the last few years.

We aim to demystify the core surgical application, and provide relevant advice on how to prepare for the interview. The stations provided here follow the actual format you will experience at interview,
