Learning OWL Class Expressions J. Lehmann, 2010-04-02 With the advent of the Semantic Web and Semantic Technologies ontologies have become one of the most prominent paradigms for knowledge representation and reasoning However recent progress in the field faces a lack of well structured ontologies with large amounts of instance data due to the fact that engineering such ontologies requires a considerable investment of resources Nowadays knowledge bases often provide large volumes of data without sophisticated schemata Hence methods for automated schema acquisition and maintenance are sought Schema acquisition is closely related to solving typical classification problems in machine learning e.g. the detection of chemical compounds causing cancer In this work we investigate both the underlying machine learning techniques and their application to knowledge acquisition in the Semantic Web
