Cybernetics for the Social Sciences Bernard Scott, 2021-05-25 Bernard Scott has met a long felt need by authoring a book that shows the relevance of cybernetics for the social sciences including psychology sociology and anthropology Scott provides user friendly descriptions of the core concepts of cybernetics with examples of how they can be used in the social sciences He explains how cybernetics functions as a transdiscipline that unifies other disciplines and a metadiscipline that provides insights about how other disciplines function He provides an account of how cybernetics emerged as a distinct field following interdisciplinary meetings in the 1940s convened to explore feedback and circular causality in biological and social systems He also recounts how encountering cybernetics transformed his thinking and his understanding of life in general

Youth Ministry from the Outside In Brandon K. McKoy, 2013-09-13 Brandon McKoy mines social construction theory to redirect our youth ministries from a focus on forming and protecting the private faith lives of students to cultivating an awareness of Christ in our midst in the overlapping relationships stories and spheres of life that make us who we are

Narrating Peoplehood amidst Diversity Michael Böss, 2011-10-15 Telling stories is an essential part of being human We tell stories about ourselves to show other people who we are and where we belong Nations have stories to tell too stories of peoplehood that build and maintain a sense of national belonging and identity The concept has been used to analyse identities memories and histories of individuals communities and nations But does it make sense to talk about peoplehood today Can plural societies tell national stories without marginalizing their minorities And is it even fair to assume that our individual self narratives are coupled with shared cultural ones In *Narrating Peoplehood amidst Diversity* 16 internationally renowned scholars reflect on the nature and history of peoplehood and discuss how it forms part of national identities public culture and academic historiography Based on theoretical analysis and empirical studies drawn from Latinos in the United States and African immigrants in France and from multicultural stands in Canada to grand narratives in Danish history the book is a timely contribution to the ongoing debate on belonging and identification in multicultural societies

New Horizons For Second-order Cybernetics Alexander Riegler, Karl H Muller, Stuart A Umpleby, 2017-09-15 In almost 60 articles this book reviews the current state of second order cybernetics and investigates which new research methods second order cybernetics can offer to tackle wicked problems in science and in society The contributions explore its application to both scientific fields such as mathematics psychology and consciousness research and non scientific ones such as design theory and theater science The book uses a pluralistic

multifaceted approach to discuss these applications Each main article is accompanied by several commentaries and author responses which together allow the reader to discover further perspectives than in the original article alone This procedure shows that second order cybernetics is already on its way to becoming an idea shared by many researchers in a variety of disciplines

A Framework for Critical Transnational Research Manuela Guilherme, 2022-04-19 By foregrounding successful transnational research projects conducted across Latin America and Europe this edited collection contests epistemological hegemony and heterogeneity in the academy and highlights feasible models for research cooperation across diverse languages cultures and epistemologies Chapters focus on the practical and theoretical tenets of responsible intra national research and propose the Glocademia framework as a means of enhancing critical reflection on issues that can inhibit plurilingual intercultural and inter epistemic research The text offers key recommendations to support institutions and researchers to develop intercultural awareness multi level citizenship and a readiness to embrace diverse knowledge ecologies The book builds on existing discussions on multiculturalism interculturality and transculturality to offer high academic value to the discussion of higher education and research Offering important contributions to the study of global academic research this volume will be of interest to scholars and researchers with an interest in international and comparative education as well as multicultural studies in education research
