Culture And Conflict Resolution Culture And Conflict Resolution

Essien, Essien

Culture And Conflict Resolution Culture And Conflict Resolution:

Culture & Conflict Resolution Kevin Avruch, 1998 After years of relative neglect culture is finally receiving due recognition as a key factor in the evolution and resolution of conflicts Unfortunately however when theorists and practitioners of conflict resolution speak of culture they often understand and use it in a bewildering and unhelpful variety of ways With sophistication and lucidity *Culture and Conflict Resolution* exposes these shortcomings and proposes an alternative conception in which culture is seen as dynamic and derivative of individual experience The book explores divergent theories of social conflict and differing strategies that shape the conduct of diplomacy and examines the role that culture has and has not played in conflict resolution The author is as forceful in critiquing those who would dismiss or diminish culture's relevance as he is trenchant in advocating conflict resolution approaches that make the most productive use of a coherent concept of culture In a lively style Avruch challenges both scholars and practitioners not only to develop a clearer understanding of what culture is but also to take that understanding and incorporate it into more effective conflict resolution processes

Context and Pretext in Conflict Resolution Kevin Avruch, 2015-11-17 Written by a distinguished scholar this book explores themes of culture identity and power as they relate to conceptions of practice in conflict resolution and peacebuilding Among the topics covered are ethnic and identity conflicts culture relativism and human rights post conflict trauma and reconciliation and modeling varieties of conflict resolution practice *Context and Pretext in Conflict Resolution* is the winner of the 2014 Conflict Research Society Book of the Year Prize

Culture, Conflict, and Mediation in the Asian Pacific Bruce E. Barnes, 2007-08-09 The countries of China Taiwan Singapore Japan Korea Malaysia Philippines Indonesia and Thailand are brought together for the first time in an integrated and systematic work outlining each country's cultural themes cultural practices and preferred conflict resolution mechanisms The new ADR processes and centuries old mediation and conciliation systems used in these countries are compared with the evolving mediation and ADR systems including facilitation in North America and the West This comprehensive study analyzes the cultural themes commonly found in these countries religious conflicts and presents over 30 different stories case studies and conflict resolution scenarios from the region *Culture Conflict and Mediation in the Asian Pacific* looks beyond traditional regional boundaries to group Hawai'i with the nine Asian countries as an example of mediation systems and cultural influence on the most Asian of the U.S. states over 2/3 of the population of Hawai'i is Asian American

Conflict Resolution Kevin Avruch, Peter W. Black, Joseph A. Scimecca, 1991-11-30 This unique collection of comparable case studies addresses the need to assess modes of conflict resolution in a larger sociocultural context with attention to varying approaches and cultural perspectives Editors Avruch Black and Scimecca along with other anthropologists and sociologists propose and test different propositions while looking toward a general theory of conflict and conflict resolution They offer a broad range of vantage points for considering conflict resolution in five different cultures Conflict resolution is seen as an emerging discipline

Cultural Variation in Conflict Resolution Douglas P. Fry, Kaj Björkqvist, Kaj Björkqvist, 2013-04-15 This volume's central purpose is to provide a clearly written scholarly exploration of cultural variation regarding conflict resolution and in so doing highlight certain alternatives to violence. It presents an interdisciplinary examination of how conflicts are perceived and handled in a variety of cultural settings. Drawing on data and models from anthropology, psychology, and political science, the chapters analyze conflict resolution across the societal spectrum, including cases from Western and non-Western traditions, complex and tribal societies, and violent and non-violent cultures. While demonstrating the extremely important impact of culture on conflict resolution processes, the book does not solely emphasize cultural specificity. Rather, through introductory chapters, section introductions, and a concluding chapter, the volume editors draw attention to cross-cultural patterns in an attempt to further the search for more general conflict principles. An explicit message throughout the book is that alternatives to violence exist. The volume demonstrates that at various levels, from the interpersonal to the international, conflicts can be handled in ways that cause far less pain and destruction than violence. Chapters by psychologists discuss social and cognitive processes for facilitating the learning of alternatives to violence among children and youth. Anthropology contributors explore mechanisms for dealing with social conflict which allow some cultures to remain relatively peaceful and consider implications of their work for reducing violence in other societies. Chapters by former President of Costa Rica, Oscar Arias, and by political scientists examine how non-violent political solutions can be employed as alternatives to warfare and violent resistance.

Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding Essien, 2020-03-20 The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution. Given the curious datum that culture is implicated in nearly every conflict in the world, culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes. Yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored. The *Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding* is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals, traditions, and laws. Highlighting a wide range of topics such as criminal justice, politics, and technological development, this book is essential for educators, social scientists, sociologists, political leaders, government officials, academicians, conflict resolution practitioners, world peace organizations, researchers, and students.
