Cape 2 Physics Syllabus 2014:

Knowledge-building Karl Maton, Susan Hood, Suellen Shay, 2015-10-08 Education and knowledge have never been more important to society yet research is segmented by approach methodology or topic Legitimation Code Theory or LCT extends and integrates insights from Pierre Bourdieu and Basil Bernstein to offer a framework for research and practice that overcomes segmentalism This book shows how LCT can be used to build knowledge about education and society Comprising original papers by an international and multidisciplinary group of scholars Knowledge building offers the first primer in this fast growing approach Through case studies of major research projects Part I provides practical insights into how LCT can be used to build knowledge by enabling dialogue between theory and data in qualitative research bringing together quantitative and qualitative methodologies in mixed methods research relating theory and practice in praxis conducting interdisciplinary studies with systemic functional linguistics Part II offers a series of studies of pressing issues facing knowledge building in education and beyond encompassing diverse subject areas including physics English cultural studies music and design educational sites schooling vocational education and higher education practices of research curriculum pedagogy and assessment both education and informal learning contexts such as museums and masonic lodges Carefully sequenced and interrelated these chapters form a coherent collection that gives a unique insight into one of the most thought provoking and innovative ways of building knowledge about knowledge building in education and society to have emerged this century This book is essential reading for all serious students and scholars of education sociology and linguistics

The Science Fiction Mythmakers Jennifer Simkins, 2016-09-13 A literary genre that pervades 21st century popular culture science fiction creates mythologies that make statements about humanity's place in the universe and embody an intersection of science religion and philosophy This book considers the significance of this confluence through an examination of myths in the writings of H G Wells Arthur C Clarke Philip K Dick and Frank Herbert Presenting fresh insights into their works the author brings to light the tendency of science fiction narratives to reaffirm spiritual myths

Biographies in the History of Physics Christian Forstner, Mark Walker, 2020-07-22 This book sheds new light on the biographical approach in the history of physics by including the biographies of scientific objects institutions and concepts What is a biography Can biographies also be written for non human subjects like scientific instruments institutions or concepts The respective chapters of this book discuss these controversial questions using examples from the history of physics By approaching biography as metaphor it transcends the boundaries between various perspectives on the history of physics and enriches our grasp of the past

Children and the Power of Stories Carmen Blyth, Teresa K. Aslanian, 2022-03-04 This book explores how stretching stories through posthuman and autoethnographic perspectives can produce new stories that decolonialize traditional thinking and approaches to Early Childhood Education ECE It demonstrates how stories can provide a different way of knowing and a way of knowing differently a way of decolonializing current discourses of early childhood education within educational institutions The book

uses research and practice in ECE to act as a canvas a context with which to explore how autoethnography can become other when viewed through a posthumanist lens As a consequence the chapters and stories within allow for an interplay between the posthumanist and the autoethnographic an interplay that allows for a very specific type of meaning to emerge a meaning that traffics in numerous and disruptive possibilities rather than settled certainties In so doing authors rethink and perturb the notion of child centered approaches to knowing be coming and doing within the Early Childhood Education context
