Cultivating Differences Symbolic Boundaries And The Making Of Inequality:

Cultivating Differences Michèle Lamont, Marcel Fournier, 1992-01-15 How are boundaries created between groups in society And what do these boundaries have to do with social inequality In this pioneering collection of original essays a group of leading scholars helps set the agenda for the sociology of culture by exploring the factors that push us to segregate and integrate and the institutional arrangements that shape classification systems Each examines the power of culture to shape our everyday lives as clearly as does economics and studies the dimensions along which boundaries are frequently drawn The essays cover four topic areas the institutionalization of cultural categories from morality to popular culture the exclusionary effects of high culture from musical tastes to the role of art museums the role of ethnicity and gender in shaping symbolic boundaries and the role of democracy in creating inclusion and exclusion The contributors are Jeffrey Alexander Nicola Beisel Randall Collins Diana Crane Paul DiMaggio Cynthia Fuchs Epstein Joseph Gusfield John R Hall David Halle Richard A Peterson Albert Simkus Alan Wolfe and Vera Zolberg

Curious Lessons in the Museum Claire Robins, 2016-05-13 Amongst recent contemporary art and museological publications there have been relatively few which direct attention to the distinct contributions that twentieth and twenty first century artists have made to gallery and museum interpretation practices There are fewer still that recognise the pedagogic potential of interventionist artworks in galleries and museums This book fills that gap and demonstrates how artists have been making curious but none the less useful contributions to museum education and curation for some time Claire Robins investigates in depth the phenomenon of artists interventions in museums and examines their pedagogic implications She also brings to light and seeks to resolve many of the contradictions surrounding artists interventions where on the one hand contemporary artists have been accused of alienating audiences and on the other appear to have played a significant role in orchestrating positive developments to the way that learning is defined and configured in museums She examines the disruptive and parodic strategies that artists have employed and argues for that they can be understood as part of a move to re establish the museum as a discursive forum This valuable book will be essential reading for students and scholars of museum studies as well as art and cultural studies
