Campus Sex Assaults Chicago Tribune Staff,2012-06-05 In September 2010 St Mary s College freshman Elizabeth Lizzy Seeberg was found dead a victim of an apparent suicide from prescription medication mere days after alleging she had been sexually attacked by a Notre Dame football player Starting in November of that year the Chicago Tribune began reporting on this case that was up until that point not publicly acknowledged by the University of Notre Dame Over the course of the next year Tribune journalists and investigators produced a series of articles focusing on this case and the cases of other sexual assault victims on Midwestern university campuses7mdash leading to new investigations and subsequent reforms at schools across the region Campus Sexual Assaults is a gripping and important piece of investigative journalism revealing disturbing primary materials from cases and shocking personal interviews with the victims The yearlong investigation shed light on the antiquated and obfuscated reporting and prosecuting practices of major Midwest colleges and universities going so far as to discover that Notre Dame campus authorities did not even promptly investigate the alleged assault that occurred days before Lizzy Seeberg s death Campus Sexual Assaults goes on to investigate similar trends in under reporting and under prosecuting sexual assaults on campuses across the country Part 1 of Campus Sexual Assaults reports on the Seeberg case as it unfolded and ends with the county prosecutor s decision that there would be no charges since the victim s death made her statements inadmissible in court Part 2 has a wider focus as the Tribune reports on another similar attack at Notre Dame and a survey finding that few people accused of sexual violence on college campuses are ever convicted Part 3 deals with reforms at Notre Dame and similar problems at Marquette University The powerful stories told in Campus Sexual Assaults by the survivors and families victimized by these attacks are moving as much as they can be upsetting After months of reporting and research on the Seeberg case and others like it the Tribune s investigations sparked new legal investigations and subsequent reforms at the campuses in question This collection of articles and investigative reports is a touching in depth look at an endemic problem at universities across America and should be required reading for not only campus and sexual health educators but for university audiences and concerned readers everywhere *Resources in Education* ,1996-04

the United States U S Supreme Court overturned Roe v Wade 1973 with the Dobbs v Jackson Women s Health Organization case thereby eliminating the constitutional right to abortion As a result authority now resides with individual states to regulate abortion access Currently abortion is banned in several states severely restricted in some and protected in others While the impact of the Dobbs decision has yet to be fully realized it has severe implications for sexual and reproductive health rights and justice population health and health equity nationally and globally The impact of the ruling is expected to exacerbate existing health disparities and produce new inequities in sexual reproductive and maternal health outcomes disproportionately affecting pregnant people who are already minoritized or disenfranchised e g people of color people with low incomes young people people living in rural areas immigrants people who identify as LGBTQIA justice involved and unhoused communities living in states where abortion access has been banned or restricted This Research Topic aims to elucidate actual short term potential long term global and domestic health inequities produced by the Dobbs decision and to describe efforts and interventions designed and undertaken to reduce health impacts and inequities in advance or directly after the decision Recent data from countries that have restricted access to abortion over the past 30 years reveal that such laws actually increase rates of unsafe abortion which in many instances leads to pregnant people becoming severely ill or dying from preventable causes In an era of maternal health crisis for people of color in the U S and other disadvantaged populations around the world eliminating the constitutional right to abortion in the U S will have a reactionary impact on underserved and minoritized groups everywhere The implications will be felt globally as the Dobbs decision has triggered the development of restrictive policies increasing inequalities by social and demographic characteristics Many groups disproportionately experience social disadvantage yielding socially distributed negative exposures including severely limited access to care The goal of the article collection is to identify threats to results of and protections against inequities in reproductive health rights and justice Devoting a Special Issue to this topic brings vital and robust discourse about reproductive justice and health inequity to the forefront of public health
