Pre-budget 2005 Great Britain. Parliament. House of Commons. Environmental Audit Committee,2006 The Committee reports on the progress made by the Treasury in placing environmental objectives at the heart of its fiscal policies This year s pre Budget report Cm 6701 December 2005 ISBN 0101670125 is found to be inadequate especially in the context of UK CO2 emissions actually increasing once more No significant new measures were announced and the Committee sees a continued slowing down of the Treasury s momentum in turning rhetoric into action It believes the Treasury should redefine Air Passenger Duty APD as an environmental tax and that APD rates should more accurately reflect the carbon emissions of the flights to which they apply Charging APD on flights rather than passengers could also act as an incentive to more efficient use of aviation fuel The Committee also recommends action on aviation fuel duty biofuels car energy efficiency steps to wean the economy off over reliance on oil stamp duty and council tax reductions for homes built or refurbished to high environmental standards Each pre Budget report should include figures on total revenue from the climate change levy aggregates levy and landfill tax Although the Treasury accepts the principle of increasing taxes on bads rather than goods its reluctance for bold reform of the tax system mystifies the Committee A Green tax Commission should be reconsidered to develop a proper communications strategy to sell the environmental programme to the public The Committee exhorts the Government to make moves on the climate change problem as waiting for universal agreement is a recipe for stasis Finally

the Committee regrets the Treasury's decision to abolish the Operating and Financial Review required from large companies in that it appears to view sustainable reporting as an optional extra. It hopes that the proposed new business reviews will continue to require some form of social and environmental disclosure from companies.
