**Cuba** Ted A. Henken, Miriam Celaya, Dimas Castellanos, 2013-10-29 Written by some of the best known independent scholars citizen journalists cyber activists and bloggers living in Cuba today this book presents a critical complete and unbiased overview of contemporary Cuba In this era of ever increasing globalization and communication across national borders Cuba remains an isolated island oddly out of step with the rest of the world And yet Cuba is beginning to evolve via the important if still insufficient changes instituted by Raul Castro who became president in 2008 This book supplies a uniquely independent accurate and critical perspective in order to evaluate these changes in the context of the island s rich and complex history and culture Organized into seven topical chapters that address geography history politics and government economics society culture and contemporary issues readers will gain a broad insightful understanding of one of the most unusual fascinating and often misunderstood nations in the Western Hemisphere [A Contemporary Cuba Reader](#)

[Reader](#) Philip Brenner, Marguerite Rose Jiménez, John M. Kirk, William M. LeoGrande, 2014-07-07 Cuba has undergone dramatic changes since the collapse of European communism The loss of economic aid and preferential trade with the Soviet Union and other Eastern bloc countries forced the Cuban government to search out new ways of organizing the domestic economy and new commercial relations in an international system dominated by market economies The resulting economic reforms have reverberated through Cuban society and politics recreating social inequalities unknown since the 1950s and confronting the political system with unprecedented new challenges The resulting ferment is increasingly evident in Cuban cultural expression and the responses to adversity and scarcity have reshaped Cuban social relations This completely revised and updated edition focuses on Cuba since Ra l Castro took over the country s leadership in 2006 *A Contemporary Cuba*

*Economic Normalization with Cuba* Gary Clyde Hufbauer, Barbara Kotschwar, 2014-05-05 Description For more than 50 years the United States has attempted to destabilize and isolate the Castro regime in Cuba with the use of trade and financial sanctions a policy that has fallen short of its objective In this Policy Analysis Gary Clyde Hufbauer and Barbara Kotschwar suggest that the sands of time may accomplish what economic pressure did not Raúl Castro president of Cuba since 2008 plans to step down at the end of 2018 implying a new regime in five years Various forces are starting to emerge favoring economic normalization if Cuba appears ready to change its policies as well as its leadership The authors caution however that a unilateral dismantling of US sanctions without insuring that proper institutions are in place in Cuba could squander a golden opportunity for US companies They argue that a new US Cuba relationship must entail a lifting of Cuba's barriers to trade and investment liberalization of its economy and the adoption of democratic institutions They offer a roadmap for a future US Cuba rapprochement
