Cuba Between Empires 1878 1902 Pitt Latin American Series:

Cuba between Empires, 1878-1902 Louis A. Pérez Jr., 1983-06-15 Cuban independence arrived formally on May 20 1902 with the raising of the Cuban flag in Havana a properly orchestrated and orderly inauguration of the new republic But something had gone awry Republican reality fell far short of the separatist ideal In an unusually powerful book that will appeal to the general reader as well as to the specialist Louis A Perez Jr recounts the story of the critical years when Cuba won its independence from Spain only to fall in the American orbit The last quarter of the nineteenth century found Cuba enmeshed in a complicated colonial environment tied to the declining Spanish empire yet economically dependent on the newly ascendant United States Rebellion against Spain had involved two generations of Cubans in major but fruitless wars By careful examination of the social and economic changes occurring in Cuba and of the political content of the separatist movement the author argues that the successful insurrection of 1895-98 was not simply the last of the New World rebellions against European colonialism It was the first of a genre that would become increasingly familiar in the twentieth century a guerrilla war of national liberation aspiring to the transformation of society The third player in the drama was the United States For almost a century the United States had pursued the acquisition of Cuba Stepping in when Spain was defeated the Americans occupied Cuba ostensibly to prepare it for independence but instead deliberately created institutions that restored the social hierarchy and guaranteed political and economic dependence It was not the last time the U S intervention would thwart the Cuban revolutionary impulse

Public Policy in Latin America John W. Sloan, 2010-11-23 The study of Latin America has long been an ideological battleground Scholars disagree on every major issue the impact of the U S influence in the region the political orientation of the middle class the role of the military the rate of socioeconomic change and the viability of reform *Public Policy in Latin America* is a masterful synthesis of scholarship on the region Sloan studies political phenomena not by making superficial comparisons between leaders parties or styles but by examining what governments do the creation of public policy through political process The decisions to stress accumulation versus distribution of economic goods the role of the bureaucracy and the quality of political participation tell more about a nation than what party or persons are in power

1998 Massimo Mastrogregori, 2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors

Unequal Giants Joseph Smith, 1991-09-15 In 1889 the Brazilian empire was overthrown in a military coup The goodwill and assistance of the United States to the young republic of Brazil helped forge an alliance But America's apparently irresistible political and economic advances into Brazil were also hampered by disagreements over naval armaments reciprocity arrangements the

issue of coffee valorization and in the 1920s over Brazil's efforts to play an active role in the League of Nations at Geneva. The relationship proved to be unequal with the United States gaining influence in Latin America as the Brazilian elite's ambitions and vanities were fed. **Discreet Partners** Aldo Cesar Vacs, 2010-11-23 Beginning with a review of the Argentine USSR

relationship up to 1970 Aldo Vacs describes and analyzes economic, diplomatic and military developments as well as their impact on Argentine society and politics since the early 1970s. Vacs views each country's objectives and the extent and limits of their shared interests. *The Film Industry in Brazil* Randal Johnson, 2010-11-23 Looking back through the prism of the

severe economic crisis for filmmaking in the 1980s *The Film Industry in Brazil* explores the unusual relationship between the state-supported industry which often produced politically radical films and the authoritarian regime that had held sway for twenty years. To ground his analysis Johnson covers the early years of the film industry 1898-1930 attempts at

industrialization during the 1930s and 1940s film industry congresses and government film boards 1950-1966 the National Film Institute 1966-1975 and the expansion of the state's role from 1969 through 1980. Well conceived, carefully researched and documented Johnson's study fills a major gap in film studies by tracing the development of this industry in Brazil

focusing specifically on its relationship to the state. *Roads to Reason* Richard E. Hartwig, 2010-11-23 Hartwig views the Colombian Ministry of Public Works applying a theoretical model of rationality and responsibility to view how policy failures were caused by faulty definitions of problems and mistaken approaches in building Andean Highways from 1922-1974. This

book will interest those involved in policy administration, organization theory and policy planning in both developed and developing countries. *A London Bibliography of the Social Sciences*, 1931 Vols 1-4 include material to June 1, 1929. Oil

and Mexican Foreign Policy George Grayson, 1988-05-15 The discovery of enormous oil reserves in the early 1970s revolutionized Mexico's economy and political behavior bringing soaring revenues and industrial development. The oil glut of 1981 and wild fluctuations in world prices pushed the country to the brink of bankruptcy. George W. Grayson describes how the roller coaster economic ride, shrill nationalism, political assertiveness and arrogant posturing of the 1970s have given way to greater professionalism, fiscal responsibility and a cooperative attitude towards the United States in recent times.

Cuban Studies 18 Carmelo Mesa-Lago, 1988-10-01 Essays in volume 18 include discussions of Cuba's approach to the Latin American debt crisis, its two-century old race problem and its impact on Cuba's relations with Africa, differences between urban and rural living conditions and development and the recent housing situation in Cuba. Examinations of scholarly research include a survey of major historical works on Cuba over the past twenty-five years and an analysis of how the revolution has affected the scholar's craft and access to manuscripts and archives. The Debate section features comments on discussions in *Cuban Studies 17* of sex and gender relations in today's Cuba as well as the ongoing issue of Cuba's economic planning and management system.
