Voices of Diversity Mary C. Sengstock, 2009-03-05 The 21st century sees an increasing number of cultural minorities in the United States Particularly the rise in multi cultural or mixed heritage families is on the rise As with many trends just as the amount of diversity increases so does the level of resistance in groups that oppose this diversity While this problem exists through life for persons from multicultural backgrounds the tension is particularly acute for children whose identities and socialization experiences are still in formation With parents from different cultural backgrounds as well as school and community experiences giving that might question their diverse heritage children are likely to experience distressing confusion How can they come to terms with this conflict and how can family and community help them to resolve it Combining case studies and interviews this work particularly focuses on multi cultural families as a yet untapped source of information about inter culture contact Voices of Diversity Multiculturalism in America will be both a resource for researchers and practitioners as well as a practical guide to families dealing with these issues every day

TWENTY-FIRST CENTURY DYNAMICS OF MULTICULTURALISM Martin Guevara Urbina, 2014-09-19 In the twenty first century few studies have delineated the U S multiculturalism story beyond black and white to include the truths and realities of other Americans over time resulting in highly skewed academic publications While the white experience and to a lesser extent the black experience has been well documented the brown experience for instance has been neglected minimized or excluded from the pages of history Clearly there has been a great need for researchers to examine the multiple intertwining forces of historical and contemporary movements defining shaping and governing the everyday experience of America s people In the face of centuries of manipulation exploitation oppression and sometimes brutal violence blacks browns reds yellows and others are still here fighting not only for ethnic and racial tolerance but also for equality justice respect and human dignity In fact despite the long legacy of hate violence and oppression against America s most disadvantaged communities particularly undocumented people the minority population will continue to grow and with pressing demographic shifts ethnic and racial minorities will soon become the new face of America In delineating the dynamics of multiculturalism over the years contributing authors illustrate that the United States is nowhere near a post racial society and thus we must prioritize equality justice and multiculturalism if the U S is in fact going to have a balanced system Globally the United States must actively engage in significant and positive social transformation in the new millennium if the U S is going to be situated and reflective of a post racial society in the twenty first century Twenty First Century Dynamics of Multiculturalism will be of benefit to professionals in the fields of sociology history minority studies Mexican American Chicano studies ethnic Latino studies law political science and also those concerned with sociolegal issues
