Cultures of Letters Richard H. Brodhead, 1993 Richard H Brodhead uses a great variety of historical sources many of them considered here for the first time to reconstruct the institutionalized literary worlds that coexisted in nineteenth century America the middle class domestic culture of letters the culture of mass produced cheap reading the militantly hierarchical high culture of the post Civil War decades and the literary culture of post emancipation black education Moving across a range of writers familiar and unfamiliar and relating groups of writers often considered in artificial isolation Brodhead describes how these socially structured worlds of writing shaped the terms of literary practice for the authors who inhabited them *Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing* Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others Elizabeth Stoddard & the Boundaries of Bourgeois Culture Lynn Mahoney, 2004-01-15 First published in 2004 Routledge is an imprint of Taylor Francis an informa company *A Companion to the Literature and Culture of the American West* Nicolas S. American cultural studies **Picturesque Literature and the Transformation of the American Landscape, 1835-1874** John Evelev, 2021 This work challenges dominant narratives of the concerns of nineteenth century literature to show how supposedly minor works of picturesque helped transform the American landscape and create what we now recognize as the defining spaces of American life **Mark Twain, American Humorist** Tracy Wuster, 2017-12-01 Mark Twain American Humorist examines the ways that Mark Twain's reputation developed at home and abroad in the period between 1865 and 1882 years in which he went from a regional humorist to national and international fame In the late 1860s Mark Twain became the exemplar of a school of humor that was thought to be uniquely American As he moved into more respectable venues in the 1870s especially through the promotion of William Dean Howells in the Atlantic Monthly Mark Twain muddled the hierarchical distinctions between class appropriate leisure and burgeoning forms of mass entertainment between uplifting humor and debased laughter and between the literature of high culture and the passing whim of the merely popular *Love and the Working Class* Karen Lystra, 2024 *Love and the Working Class* is a unique look at the emotions of hard living racially diverse nineteenth century Americans who were often on the cusp of literacy Wrongly assumed to be inarticulate on paper these laboring folk highly valued letters and however difficult it was wrote to stay connected to those they loved *The Oxford Encyclopedia of American Cultural and Intellectual History*, 2013 Over 600 A Z articles on a wide range of topics in American cultural and intellectual History Explores American cultural and intellectual history from the colonial period to the present day Annotated bibliographies to highlight the major works in the field Expands and updates The Oxford Companion to United States History **Owning Up** Katherine Adams, 2009-07-29 *Owning Up* argues that from its beginning the U S discourse on privacy has been couched in terms of violation and dispossession so that even as nineteenth century Americans came to regard privacy as a natural right and to identify it with sacred ideals of democratic freedom and individuality they also understood it as under threat or erasure Using biographical and autobiographical writing as her primary archive Adams traces the public narrative of imperiled privacy across five centuries Her analyses begin with the premise that nineteenth century conceptions of privacy became meaningful only in negative relation to the encroaching forces of market capitalism and commodification Where previous studies treat privacy as a stable category whose defining features are middle class domesticity and femininity *Owning Up* contends that privacy is an empty category that lacks fixed content and requires constant re articulation via panic narratives in which gender always operates in intersection with race Chapters look at how the discourse of imperiled privacy develops in conjunction with Romantic idealism and antebellum reform racial reconstruction and the ethic of self right and Social Darwinist laissez faire and culminates at the end of the century in calls for legislation to protect the American individual's right to be let alone **Gender Protest and Same-Sex Desire in Antebellum American Literature** David Greven, 2016-04-22 Expanding our understanding of the possibilities and challenges inherent in the expression of same sex desire before the Civil War David Greven identifies a pattern of what

he calls gender protest and sexual possibility recurring in antebellum works He suggests that major authors such as Margaret Fuller Edgar Allan Poe Herman Melville and Nathaniel Hawthorne consciously sought to represent same sex desire in their writings Focusing especially on conceptions of the melancholia of gender identification and shame Greven argues that same sex desire was inextricably enmeshed in scenes of gender role strain as exemplified in the extent to which *The Narrative of Arthur Gordon Pym* depicts masculine identity adrift and in disarray Greven finds similarly compelling representations of gender protest in Fuller's exploration of the crisis of gendered identity in *Summer on the Lakes* in Melville's representation of Redburn's experience of gender nonconformity and in Hawthorne's complicated delineation of desire in *The Scarlet Letter* As Greven shows antebellum authors not only took up the taboo subjects of same sex desire and female sexuality but were adept in their use of a variety of rhetorical means for expressing the inexpressible
