Incident Name:	
Project Date:	
FOSC:	
SOSC:	
RPIC:	
Demobilization Unit Leader:	
Personnel and Equipment will be demobilized from the incident in accordance with this plan. Demobilization is an orderly and cost effective process for the release and return of all response resources and personnel to their respective home destinations. The demobilization of the resources and personnel from this incident is a team effort involving all personnel working on the incident. It is the responsibility of the Planning Section Chief to ensure that a systematic plan is established and implemented by the Demobilization Unit. This demobilization plan will be implemented upon approval of the Unified Command. Resources no longer required for the response to the incident will be demobilized as rapidly as is feasible. They will be released in the following general priority. Priority I -- Resources required to be returned to emergency services. Priority II -- Resources mobilized from off-site Priority III -- Local resources Use a Demobilization Check-Out Form to facilitate the process and to provide resource accountability. As resources are identified which are available for demobilization, the demobilization form will be initiated by the section chief responsible for that resource. The Check-Out Form will then be reviewed by the Operations Section Chief and the Planning Section Chief to verify that the resource is not planned for another task. After their approval and the communicating to the Unified Command the intended reduction in resources, the resource will be demobilized from the incident. The Demobilization Unit Leader notifies other sections about released resources.
