Raymond P. Siljander, Lance W. Juusola

Canon Vixia Manual Focus:

CLANDESTINE PHOTOGRAPHY Raymond P. Siljander, Lance W. Juusola, 2012-04-01 This book explains how to take surreptitious photographs and record video of people and property in a safe and effective manner while producing excellent results. It is the most comprehensive text on clandestine photography available. It takes the reader through conventional as well as the most sophisticated clandestine photography methods in practice today and it covers the use of all types of equipment ranging from off the shelf to the most high tech equipment available. The ultra long range night vision photography methods discussed in this book were devised by the authors and only exist here. Readers will discover esoteric techniques for photographically recording recognizable human and vehicle plate images from distances of over a mile in both daylight and night conditions. Myriad methods for secretly photographing people and property under diverse and difficult conditions are presented. Readers will discover innovative applications of combinations of old and new photographic related technologies some combined in unexpected ways that produce surprising results. It is written and extremely well illustrated in an easy to understand style for all photographers regardless of skill level. The book is appropriate for anyone in law enforcement, military operations and private investigation. It will also benefit government surveillance specialists and those responsible for detecting and thwarting manual clandestine photography.

Rapid Video Development for Trainers Jonathan Halls, 2012-05-04 Rapid Video Development for Trainers meets the needs of companies and individuals who are thinking about or have dabbled in video production. Although producing focused high quality video is well within the capability of nearly every development professional, the skill sets required to do so have not traditionally fallen within most trainers' job descriptions. This is where Rapid Video Development comes in, a comprehensive tutorial covering every aspect of web based video development. This book provides both the theoretical overview and the nuts and bolts instructions for creating professional quality video quickly, easily and inexpensively. Written specifically for trainers by a 20 year media industry veteran who has worked in Europe, America and Asia, Rapid Video Development explains in clear, non technical language everything you need to know to create exceptionally instructive, cost effective video yourself. Some of the topics discussed include the opportunities presented to trainers by the advent of inexpensive digital technology, the principles of psychology and philosophies behind effective video, what constitutes an appropriate situation in which to utilize video as a training medium, the various distinct layers: visual, spoken word, music and sound effects, and more that comprise an effective high quality video. Techniques for using effects to enhance rather than detract from the impact of your video, designing and implementing an efficient, productive workflow, thorough coverage of the tools you'll need with a heavy emphasis on the most cost effective software and hardware for your project, detailed input on how to shoot great video with sections on lighting, framing and safety, important tips on basic digital video camera care and use, how to edit your video for maximum clarity, consistency and aesthetics, a full chapter on the digital technology involved with putting your video on the web, a summary 12

point plan for achieving success with your training video At a time when training and development budgets are being decreased staff must be able to do more with less And since web based video is rapidly assuming a critical role in corporate training the ability to create highly effective video in house is crucial Rapid Video Development is your invaluable educational resource for every aspect of professional quality cost effective web video production Photo Fusion Jennifer

Rapid Media Development for Trainers Jonathan Halls,2016-12-30 Create stunning digital media quickly and affordably Shaky camerawork and scratchy audio just won t cut it with your learners But can your time and budget constrained training department produce the polished media they expect Absolutely In Rapid Media Development for Trainers veteran trainer and author Jonathan Halls uses his experience running the BBC s prestigious production training department to help even the smallest learning team dazzle Whether you need to build a training program blend your offerings or flip your classroom this book will help you make learning dynamic with rapid media techniques Free of overly technical jargon Rapid Media Development for Trainers is for novice and expert learning professionals alike It explains essential learning and media concepts and adapts standard production practices to your work schedule You won t need to max out your budget on expensive equipment or stress over camera models and editing software Use simple tools some that you already have to create video audio and online content while avoiding common missteps Turn once uninspiring training programs into riveting learning experiences that incorporate compelling video crisp podcasts and eye catching presentations Discover why planning media production always beats out winging it which cost effective tools can deliver high quality digital

media what visual auditory and graphical concepts are indispensable during creation how you can pull all your media together and edit it for a complete learning experience Boost your production and content quality with this ultimate guide to fast and affordable media development Readercentric Writing for Digital Media David Hailey, 2016-12-05 This book presents an altogether new approach to writing and evaluating writing in digital media It suggests that usability theory provides few tools for evaluating content because usability theory assumes only one kind of writing on the Internet The author suggests three models user centric usability model persuasion centric encouraging the reader to linger and be persuaded Canon camera ads and quality centric encouraging the reader to linger and learn or be entertained because of the quality of the writing NASA gov and YouTube Designed for professional writers and writing students this text provides a rubric for writing in digital media but more importantly it provides a rubric and vocabulary for identifying and explaining problems in copy that already exists The Internet has become a pastiche of cut and paste content often placed by non writers to fill space for no particular reason or by computers with no oversight from humans e g Amazon com Because these snippets are typically on topic but often for the wrong purpose or audience professional writers have difficulty identifying the problems and an even harder time explaining them Finding an effective tool for identifying and explaining problems in digital content becomes a particularly important problem as writers increasingly struggle with growing complications in complex information systems systems that create and manage their own content with little human intervention Being able to look at a body of copy and immediately see that it is problematic is an important skill that is lacking in a surprising number of professional writers **Popular Photography** , 2008-09

When people should go to the book stores, search creation by shop, shelf by shelf, it is really problematic. This is why we provide the books compilations in this website. It will extremely ease you to look guide **Canon Vixia Manual Focus** as you such as.
