Cuba In Transition Crisis And Transformation Latin American Perspectives Series No 9:

Cuba In Transition Carollee Bengelsdorf, 1992-04-13 Analyzes the nature of participatory democracy in a revolutionary context examines Cuba's economic prospects in a rapidly changing international environment and offers a series of studies of the texture of everyday life in the Western hemisphere's only socialist country Annotation copyrighted by Book News Inc Portland OR Masculinities Matter! Frances Cleaver, 2002-11 Men appear to be missing from much gender and development policy but many emerging critiques suggest the need to pay more attention to understanding men and masculinities and to analyzing the social relationships between men and women This book considers the case for a focus on men in gender and development which requires us to reconsider some of the theories and concepts which underlie policies It includes arguments based on equality and social justice the specific gendered vulnerabilities of men the emergence of a crisis of masculinity and the need to include men in development as partners for strategic change Constructing US Foreign Policy David Bernell, 2012-03-12 This book seeks to address the roots of the hostility that has characterized the United States relationship with Cuba and has persisted for decades long after the Cold War It answers the question of why America's Cold War era policy toward Cuba has not substantially changed despite a radically changed international environment going beyond the common explanation that American electoral politics and the Cuban lobby drive US policy toward Cuba Bernell argues that US foreign policy towards Cuba cannot be viewed as an objective response to a set of challenges to US interests and principles and is better understood as a policy that is rooted in and informed by historical understandings of American and Cuban identities which are themselves historically contingent Examining a wide range of sources including government documentation and official speeches this work explores the origins and perpetuation of a policy perspective that emphasizes Cuban difference illegitimacy and inferiority juxtaposed against American virtue legitimacy and superiority This work will be of great interest to all scholars of US foreign policy International Relations and Latin American politics The Cuban Revolution in the 21st Century George Lambie, 2010-10-05 Politics in Cuba have long been analysed as a socialist experiment from the perspective of internal dynamics or international relations but what if the revolutionary process is part of a counter current against neoliberal globalisation Rather than presenting Cuba as a socialist survivor whose performance must be measured against the standards set by the international community George Lambie judges Cuban socialism on the goals that the revolution sets for itself He shows that despite Cuba's isolation in the New World Order and the enormous pressures it has faced to conform its faith in an alternative socialist project has continued and grown After the 2008 financial crash we have seen neoliberalism's fallibility first hand conversely Cuba's promotion of socialist values has a renewed relevance Lambie argues that Cuba is again becoming a symbol and practical example of socialism in action Caribbean Abstracts Koninklijk Instituut voor Taal-, Land- en Volkenkunde (Netherlands). Caraïbische Afdeling, 1993 Marxism, Socialism, and Democracy in Latin America Richard L. Harris, 2019-03-04 At a time when the validity of Marxism is being questioned

because of the collapse of the Communist regimes in Eastern Europe Richard Harris examines the relevance of Marxism and socialism for Latin America and the Caribbean Dr Harris discusses recent revolutionary regimes and attempts at socialist transformation in the region in terms of Marxist theory comparing them with the historical experiences of the Soviet Union China Yugoslavia and Vietnam The author argues that Marxist theory offers a framework for understanding recent revolutionary transformations as well as the contradictions and limitations of existing democratic regimes in the region Particular attention is given to revolutionary Cuba the Allende administration in Chile the Popular Revolutionary Government in Grenada the Sandinista regime in Nicaragua and contemporary leftist parties and movements throughout Latin America He contends that democratization and the solution of the region's economic and social problems require a democratic socialist project
