Women and Rebel Communities in the Cuban Insurgent Movement, 1952-1959 Linda A. Cuba 1952-1959 Manuel

Márquez-Sterling, 2009 Author Manuel Márquez Sterling writes about Fidel Castro and his revolution from direct personal experience as a historian with broad and deep knowledge of 50s Cuba The author knew and had contact with many of the historical figures in the book's pages His penetrating analysis of the public and behind the scenes events clears the fog and shatters myths to reveal the real story of the Cuban Revolution The book explains how Castro came to power through the convergence of rabid partisanship radical student politics media bias and venal politicians who placed self interest ahead of preserving democracy Facing a constitutional crisis these parties espoused the end justifies the means embracing political gangsterism and eschewing negotiations with political opponents resulting in a power vacuum Castro exploited to seize power Masterful propaganda cast Castro as pro democracy hero avoiding scrutiny of his plans for a totalitarian state under his control Insurrection and Revolution Gladys Marel García-Pérez, 1998 *Insurrection & Revolution* Gladys Marel García, 1998 **Heroes, Martyrs, and Political Messiahs in Revolutionary Cuba, 1946-1958** Lillian Guerra, 2018-04-24 A leading scholar sheds light on the experiences of ordinary Cubans in the unseating of the dictator Fulgencio Batista In this important and timely volume one of today's foremost experts on Cuban history and politics fills a significant gap in the literature illuminating how Cuba's electoral democracy underwent a tumultuous transformation into a military dictatorship Lillian Guerra draws on her years of research in newly opened archives and on personal interviews to shed light on the men and women of Cuba who participated in mass mobilization and civic activism to establish social movements in their quest for social and racial justice and for more accountable leadership Driven by a sense of duty toward la patria the fatherland and their dedication to heroism and martyrdom these citizens built a powerful underground revolutionary culture that shaped and witnessed the overthrow of Batista in the late 1950s Beautifully illustrated with archival photographs this volume is a stunning addition to Latin American history and politics **Cuba's Revolutionary World** Jonathan C. Brown, 2017-04-24 As Castro's democratic reform movement veered off course a revolution that seemed to signal the death knell of dictatorship in Latin America brought about its tragic opposite Jonathan C Brown examines in forensic detail how the turmoil that rocked a small Caribbean nation in the 1950s became one of the century's most transformative events The Long War - Insurgency, Counterinsurgency and Collapsing States Mark T. Berger, Douglas A. Borer, 2013-09-13 The rise and fall of the Cold War coincided with the universalization and consolidation of the modern nation state as the key unit of the wider international system A key characteristic of the post Cold War era in which the US has emerged as the sole superpower is the growing number of collapsing or collapsed states A growing number of states are or have become mired in conflict or civil war the antecedents of which are often to be found in the late colonial and Cold War era At the same time US foreign policy and the actions of other organizations such as the United Nations may well be compounding state failure in the context of the post 9 11 Global War on Terror GWOT or what is also increasingly referred to as the Long War The Long War is often represented as a new era in warfare and geopolitics This book acknowledges that the Long War is new in important respects but it also

emphasizes that the Long War bears many similarities to the Cold War. A key similarity is the way in which insurgency and counterinsurgency were and continue to be seen primarily in the context of inter-state rivalry in which the critical local or regional dynamics of revolution and counter-revolution are marginalized or neglected. In this context, American policy makers and their allies have again erroneously applied a grand strategy that suits the imperatives of conventional military and geopolitical thinking rather than engaging with what are a much more variegated array of problems facing the changing global order. This book provides a collection of well-integrated studies that shed light on the history and future of insurgency, counterinsurgency, and collapsing states in the context of the Long War. This book was previously published as a special issue of *Third World Quarterly*.
