Cool Cars, High Art: The Rise of Kustom Culture ,2002 *The Routledge Companion to Automobile Heritage, Culture, and Preservation* Barry L. Stiefel, Jennifer Clark, 2019-12-06 The Routledge Companion to Automobile Heritage Culture and Preservation explores automotive heritage its place in society and the ways we might preserve and conserve it Drawing on contributions from academics and practitioners around the world and comprising six sections this volume carries the heritage discourse forward by exploring the complex and sometimes intricate place of automobiles within society Taken as a whole this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural intellectual emotional and material elements well outside of the automobile body itself Most importantly perhaps it questions how we might better acknowledge the importance of automotive heritage now and in the future The Routledge Companion to Automobile Heritage Culture and Preservation is unique in that it juxtaposes theory with practice academic approaches with practical experience and recognizes that issues of preservation and conservation belong in a broad context As such this volume should be essential reading for both academics and practitioners with an interest in automobiles cultural heritage and preservation *Hot Rod Garages* ,2013-08-12 DIVIn Hot Rod Garages acclaimed hot rod photographer and author Peter Vincent gives readers an intimate look inside the shops and garages of more than two dozen rod and custom builders Unlike most hot rod books Vincent s takes a strictly California centric approach in examining shops across the United States From individuals crafting cars for their own reward to more prominent builders turning out cool rides for paying customers Vincent and his cameras show the builders in the context of their spaces in the process exploring how their work environments inform their creations and vice versa Included are individuals like Pete Eastwood who have garnered attention in the hot rod press while building mostly for themselves builders like Vern and Keith Tardel the Kennedy Brothers and Cole Foster with his crew at Salinas Boyz all currently being celebrated for the traditionally styled rides they build for consumers and high end shops widely considered to be the cream of the industry like Roy Brizio s and Steve Moal s in the Bay Area as well as SO CAL Speed Shop heir to legend Alex Xydias The result is the next best thing to being there an exquisitely presented book that eloquently distills the varying nature of these spaces and the cars created within revealing

the countless hours spent machining wrenching welding and shaping these beautiful visions to fruition
