Hans Folz and Print Culture in Late Medieval Germany Caroline Huey, 2016-04-22 In this study author Caroline Huey analyzes the copious literary output of medieval poet and barber surgeon Hans Folz in all its variety whether Meisterlied Reimpaarspruch or carnival play Heretofore published research to do with Folz's multifaceted and compelling oeuvre has been fragmentary because scholars

have restricted themselves by genre in examining themes in Folz's work. By integrating the different themes across Folz's output and by integrating consideration previously neglected by earlier critics of Folz's role as barber surgeon Huey offers new insights as to the interaction of these themes and to the character of the poet's work overall. She shows that ultimately Folz is concerned with the circulation of knowledge and power, correct and incorrect behavior, and above all with finding order. In each chapter Huey examines a particular theme from Folz's life and/or work. She looks at how adeptly he commandeers the new technology of printing to further his own ends; how his ubiquitous physicality connects his medical body to his Christian body; his attitude toward women and the anti-Jewish thread in his work. *Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age* Albrecht Classen, 2014-07-28. This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health, spirituality, melancholy, mystical visions, medicine, and well-being. The contributors, who originally had presented their research at a symposium at The University of Arizona in May 2013, explore a wide range of approaches and materials pertinent to these issues, taking us from the early Middle Ages to the eighteenth century, capping the volume with some reflections on the relevance of religion today. Lapidary sciences matter here as much as medical/psychological research combined with literary and art historical approaches. The premodern understanding of mental health is not taken as a miraculous panacea for modern problems, but the contributors suggest that medieval and early modern writers, scientists, and artists commanded a considerable amount of arcane, sometimes curious and speculative knowledge that promises to be of value and relevance even for us today. Once again, Modern palliative medicine finds, for instance, intriguing parallels in medieval word magic and the mystical perspectives encapsulated in highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the postmodern world. **Pleasure and Leisure in the Middle Ages and Early Modern Age** Albrecht Classen, 2019-08-05. Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for premodern civilization. Recent research has begun to acknowledge the fundamental importance of these aspects in cultural, religious, philosophical, and literary terms. This volume expands on the traditional approach, still very much focused on the materiality of game toys, cards, dice, falcons, dolls, etc., and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune. Whether considering blessings or horse fighting, falconry or card games, playing with dice or dolls, we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time. The contributions examine a wide gamut of approaches to pleasure, considering health issues, eroticism, tournaments, playing music, reading and listening, drinking alcohol, gambling, and throwing dice. This large issue was also relevant, of course, in non-Christian societies and constitutes a critical concern both for the past and the present because we are all *homines ludentes*. **Freedom, Imprisonment, and Slavery in the Pre-Modern**

World Albrecht Classen, 2021-04-19 Contrary to common assumptions medieval and early modern writers and poets often addressed the high value of freedom whether we think of such fable authors as Marie de France or Ulrich Bonerius Similarly medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence Nevertheless as this study illustrates throughout the pre modern period the loss of freedom could happen quite easily affecting high and low including kings and princes and there are many literary texts and historical documents that address the problems of imprisonment and even enslavement Georgius of Hungary Johann Schiltberger Hans Ulrich Krafft etc Simultaneously philosophers and theologians discussed intensively the fundamental question regarding free will e g Augustine and political freedom e g John of Salisbury Moreover quite a large number of major pre modern poets spent a long time in prison where they composed some of their major works Boethius Marco Polo Charles d Orlans Thomas Malory etc This book brings to light a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom imprisonment and enslavement Prof Albrecht Classen is the joint winner of The Literary Encyclopedia book prize for 2023 Literatures written in languages other than English for this book https://www.litencyc.com/book/prizes/book_prizes_2023.php

East Meets West in the Middle Ages and Early Modern Times Albrecht Classen, 2013-09-03 This new volume explores the surprisingly intense and complex relationships between East and West during the Middle Ages and the early modern world combining a large number of critical studies representing such diverse fields as literary German French Italian English Spanish and Arabic and other subdisciplines of history religion anthropology and linguistics The differences between Islam and Christianity erected strong barriers separating two global cultures but as this volume indicates despite many attempts to Other the opposing side the premodern world experienced an astonishing degree of contacts meetings exchanges and influences Scientists travelers authors medical researchers chroniclers diplomats and merchants criss crossed the East and the West or studied the sources produced by the other culture for many different reasons As much as the theoretical concept of Orientalism has been useful in sensitizing us to the fundamental tensions and conflicts separating both worlds at least since the eighteenth century the premodern world did not quite yet operate in such an ideological framework Even though the Crusades had violently pitted Christians against Muslims there were countless contacts and a palpable curiosity on both sides both before during and after those religious warfares

Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by

people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture
