Cultural Locations of Disability Sharon L. Snyder, David T. Mitchell, 2010-01-26 In *Cultural Locations of Disability* Sharon L. Snyder and David T. Mitchell trace how disabled people came to be viewed as biologically deviant The eugenics era pioneered techniques that managed defectives through the application of therapies invasive case histories and acute surveillance techniques turning disabled persons into subjects for a readily available research pool In its pursuit of normalization eugenics implemented disability regulations that included charity systems marriage laws sterilization institutionalization and even extermination Enacted in enclosed disability locations these practices ultimately resulted in expectations of segregation from the mainstream leaving today's disability politics to focus on reintegration visibility inclusion and the right of meaningful public participation Snyder and Mitchell reveal cracks in the social production of human variation as aberrancy From our modern obsessions with tidiness and cleanliness to our desire to attain perfect bodies notions of disabilities as examples of human insufficiency proliferate These disability practices infuse more general modes of social obedience at work today Consequently this important study explains how disabled people are instrumental to charting the passage from a disciplinary society to one based upon regulation of the self

The Feminist Political Campaign for Eugenic Legislation in New Jersey, 1910-1942 Alan R. Rushton, 2023-01-12 As this book shows between 1910 and 1942 social feminists in New Jersey waged an unsuccessful campaign for legislation that would permit eugenic sterilization of feeble-minded and other undesirable citizens Church archives and religious periodicals described the conflict between Catholic and Protestant citizens regarding this issue Reform-minded women persisted in their quest for such progressive state legislation despite repeated failures Their number of potential voters was very small compared to the organized bloc of Catholic citizens who viewed such legislation as immoral and based on bad science and threatened to unseat any legislator who supported such a notion This insightful text highlights that public officials would only enact such laws when they were convinced that many citizens supported a particular eugenic goal and then would vote for legislators who satisfied this moral challenge Public opinion was unprepared for such radical legislation in New Jersey and legislators learned that to even consider a eugenic sterilization notion would be political suicide
