Cumin Camels And Caravans A Spice Odyssey:

Cumin, Camels, and Caravans Gary Paul Nabhan, 2014-04-07 Gary Paul Nabhan takes the reader on a vivid and far ranging journey across time and space in this fascinating look at the relationship between the spice trade and culinary imperialism Drawing on his own family s history as spice traders as well as travel narratives historical accounts and his expertise as an ethnobotanist Nabhan describes the critical roles that Semitic peoples and desert floras had in setting the stage for globalized spice trade Traveling along four prominent trade routes the Silk Road the Frankincense Trail the Spice Route and the Camino Real for chiles and chocolate Nabhan follows the caravans of itinerant spice merchants from the frankincense gathering grounds and ancient harbors of the Arabian Peninsula to the port of Zayton on the China Sea to Santa Fe in the southwest United States His stories recipes and linguistic analyses of cultural diffusion routes reveal the extent to which aromatics such as cumin cinnamon saffron and peppers became adopted worldwide as signature ingredients of diverse cuisines *Cumin Camels and Caravans* demonstrates that two particular desert cultures often depicted in constant conflict Arabs and Jews have spent much of their history collaborating in the spice trade and suggests how a more virtuous multicultural globalized society may be achieved in the future

A Rich and Tantalizing Brew Jeanette M. Fregulia, 2019-03-04 The history of coffee is much more than the tale of one

luxury good it is a lens through which to consider various strands of world history from food and foodways to religion and economics and sociocultural dynamics A Rich and Tantalizing Brew traces the history of coffee from its cultivation and brewing first as a private pleasure in the highlands of Ethiopia and Yemen through its emergence as a sought after public commodity served in coffeehouses first in the Muslim world and then traveling across the Mediterranean to Italy to other parts of Europe and finally to India and the Americas At each of these stops the brew gathered ardent aficionados and vocal critics all the while reshaping patterns of socialization Taking its conversational tone from the chats often held over a steaming cup A Rich and Tantalizing Brew offers a critical and entertaining look at how this bitter beverage with a little help from the tastes that traveled with it chocolate tea and sugar has connected people to each other both within and outside of their typical circles inspiring a new context for sharing news conducting business affairs and even plotting revolution

Hoptopia Peter A. Kopp, 2016-09-06 Hoptopia argues that the current revolution in craft beer is the product of a complex global history that converged in the hop fields of Oregon's Willamette Valley What spawned from an ideal environment and the ability of regional farmers to grow the crop rapidly transformed into something far greater because Oregon farmers depended on the importation of rootstock knowledge technology and goods not only from Europe and the Eastern United States but also from Asia Latin America and Australasia They also relied upon a seasonal labor supply of people from all of these areas as a supplement to local Euroamerican and indigenous communities to harvest their crops In turn Oregon hop farmers reciprocated in exchanges of plants and ideas with growers and scientists around the world and of course sent their cured hops into the global marketplace These global exchanges occurred not only during Oregon's golden era of hop growing in the late nineteenth and early twentieth centuries but through to the present in the midst of the craft beer revival The title of this book Hoptopia is a nod to Portland's title of Beervana and the Willamette Valley's claim as an agricultural Eden from the mid nineteenth century onward But the story is fundamentally about how seemingly niche agricultural regions do not exist and have never existed independently of the flow of people ideas goods and biology from other parts of the world To define Hoptopia is to define the Willamette Valley's hop and beer industries as the culmination of all of this local and global history With the hop itself as a central character this book aims to connect twenty first century consumers to agricultural lands and histories that have been forgotten in an era of industrial food production Provided by publisher K'Oben Amber M. O'Connor, Eugene N. Anderson, 2016-12-14 K Oben traces the Maya kitchen and its associated hardware ingredients and cooking styles from the earliest times for which we have archaeological evidence through today's culinary tourism in the area It focuses not only on what was eaten and how it was cooked but the people involved who grew or sourced the foods who cooked them who ate them Additionally the authors examine how Maya foodways and the people involved fit into the social system particularly in how food is incorporated into culture economy and society The authors provide a detailed literature review of hard to find sources including out of print centuries old cookbooks archaeological field notes ethnographies and

ethnohistories out of circulation and not available in English thesis documents only available in Spanish and in university archives as well as current field research on the Maya The more recent Maya foodways can be studied from cookbooks ethnographies and ethnohistorical documentation Between the two of us we have assembled a small but representative collection of cookbooks some self published and rare that were available in Merida and elsewhere in Mexico during the late 20th century Some are quite old and all reflect local traditional foodways Geographically the book concentrates on Yucatan Tabasco and Chiapas in Mexico but will include Pre Classic and Classic evidence from Guatemala and El Salvador whose foodways are influenced by Maya traditions
