Children's Play In Diverse Cultures Suny Series In Children's Play In Society:

Children's Play in Diverse Cultures Jaipaul L. Roopnarine, James Ewald Johnson, Frank H. Hooper, 1994-01-01 This book illuminates play as a universal and culture specific activity. It provides needed information about the behavior of children in diverse cultural contexts as well as about the play of children in unassimilated cultural or subcultural contexts. It offers readers the opportunity to develop greater sensitivity to and better understanding of the important cultural differences that confront early childhood teachers and teacher educators.

Children's Imaginative Play Shlomo Ariel, 2002-06-30 In this visit to the wonderland of children's imaginative make believe play, readers are exposed to both a general bird's eye view of the whole of this fascinating realm and to a closer look at its diverse regions. This volume examines the borderlines between make believe play and akin phenomena such as dreams, drama, and rituals. Readers will become acquainted with the secret codes of make believe play. These codes are activated in both covert and overt power struggles among children as well as in the child's internal theater of emotions. Readers will have the opportunity to examine these uses by looking at real life sociodramatic play scenes. Also, the development of make believe play and its interface with the child's general cognitive and socioemotional development is traced. This volume enables readers to consider children of various cultures at play and investigates whether make believe play and its characteristics are universal or culture specific. Make believe play has been investigated across fields including cognitive, clinical, developmental, and social psychology as well as linguistics, anthropology, and sociology. In this book, a comprehensive integrative model is proposed in which all of these approaches are synthesized into a single coherent whole. The unifying hypothesis behind this synthesis is that make believe play is a semiotic system, a body of signs and symbols, a language by means of which children express themselves and communicate. This language enables children to regulate and balance both their inner emotional life and their social life. Another central hypothesis is therefore that make believe play functions as an homeostatic feedback mechanism for controlling the level of arousal around the child's central concerns as well as the level of interpersonal conflict around issues of social proximity and power. Therapeutic and education applications of make believe play are derived from these hypotheses and their ramifications.

Theory in Context and Out Stuart Reifel, 2001-06-30 Theory in and out of Context furthers discourse and understanding about the complex phenomenon we know as play. Play as a human and animal activity can be understood in terms of cultural, social, evolutionary, psychological, and philosophical perspectives. This effort necessarily includes inquiry from a range of disciplines including history, sociology, psychology, education, biology, anthropology, and leisure studies. Work from a number of those disciplines is represented in this book. This volume includes sections covering Foundations and Theory of Play, Gender and Children's Play, Theory of Mind, Adult Child Play, and Classroom Play. Scholarly analyses and reports of research from diverse disciplines amplify our understanding of play in Western and non-Western societies.

Understanding the Journey Hilda R. Glazer, Myra Clark-Foster, 2019-07-03 The death of a loved one is a traumatic event for both adults and children.

Grieving has no rules no prescribed course or expiration date After a death the feelings and experiences that follow can be extremely overwhelming and confusing The authors of this book create a supportive environment that normalizes the phases of grief through clinical expertise including a lifespan approach that indicates grief is certainly a journey from which none of us ever escapes nor perhaps reaches closure This is an important work that addresses the spiritual emotional psychological and physical aspects of a person s grief Specific topics include the physical aspects of grief anticipatory grief grief through a child s eyes understanding grief and spirituality counseling the bereaved adult adult grief support groups death in a military family counseling grieving children and traumatic loss messages of mourning using art to facilitate a child s expression of grief and the importance of self care In addition numerous case examples describing real life experiences are discussed helping to enhance coping and encourage healing The text is further enhanced by an appendix containing a wealth of information that includes sample group activities This book will be a significant resource for mental health professionals grief counselors human service providers social workers clergy nurses and lay volunteers **The Children's Folklore Review**
