- The ancient Chinese believed the spirit of their **ancestors** brought good luck or misfortune.
- **Oracle Bones** - The ancient Chinese people wrote questions to the gods on oracle bones. The **oracle** –special priests believed to receive messages from the gods – applied heat to the bones until they cracked. Then the oracle interpreted the cracks and answered the questions.
- Ancient Chinese writing used **characters** - signs to represent words or parts of words. The ancient Chinese people had to learn over 3,000 characters in order to be able to write. Today they learn over 50,000 characters.
- China’s rulers believed they had a special right, from on high, to rule the people. This was called the **Mandate of Heaven**.
- **Confucius** was a teacher that believed in respect for oneself and for one’s family. His ideas spread throughout China and are still followed today.
- The **Great Wall of China** was built to keep out fierce invaders from the North. It is the longest man-made structure on earth.
- **Emperor Shi Huangdi** strengthened the Great Wall of China. Later he had a terra cotta army of elaborate soldiers built to protect his tomb.

- The **Grand Canal** was built to connect the Huang (Yellow) and the Chang (Yangtze) Rivers.
