Approaches to Teaching the Works of Inca Garcilaso de la Vega Christian Fernández, José Antonio Mazzotti, 2022-03-24 Offers techniques for teaching the works of Inca Garcilaso de la Vega in undergraduate classrooms including considerations of mestizaje transnational identity interdisciplinarity influence on modern historians and ethnographers the Quechua language Incan social structures Incan myth and religion translation natural history indigenous writing and culture the picaresque genre and historiography *A Catalogue of Spanish and Portuguese Books, with Occasional Literary and Bibliographical Remarks* Vincente Salva, 1826 **The Conquest of Mexico** Peter B. Villella, Pablo García Loaeza, 2022-07-07 The Spanish invasion of Mexico in 1519 which led to the end of the Aztec Empire was one of the most influential events in the history of the modern Atlantic world But equally consequential as this volume makes clear were the ways the Conquest was portrayed In essays spanning five centuries and three continents *The Conquest of Mexico 500 Years of Reinventions* explores how politicians writers artists activists and others have strategically reimagined the Conquest to influence and manipulate perceptions within a wide variety of controversies and debates including those touching on indigeneity nationalism imperialism modernity and multiculturalism Writing from a range of perspectives and disciplines the authors demonstrate that the Conquest of Mexico whose significance has ever been marked by fundamental ambiguity has consistently influenced how people across the modern Atlantic world conceptualize themselves and their societies After considering the looming ubiquitous role of the Conquest in Mexican thought and discourse since the sixteenth century the contributors go farther afield to examine the symbolic relevance of the Conquest in contexts as diverse as Tudor England Bourbon France postimperial Spain modern Latin America and even contemporary Hollywood Highlighting the extent to which the Spanish Aztec conflict inspired historical reimaginings these essays reveal how the Conquest became such an iconic event and a perennial medium by which both Europe and the Americas have for centuries endeavored to understand themselves as well as their relationship to others A valuable contribution to ongoing efforts to demythologize and properly memorialize the Spanish Aztec War of 1519 21 this volume also aptly illustrates how we make history of the past and how that history making shapes our present and possibly our future **The Andean Wonder Drug** Matthew James Crawford, 2016-09-07 In the eighteenth century malaria was a prevalent and deadly disease and the only effective treatment was found in the Andean forests of Spanish America a medicinal bark harvested from cinchona trees that would later give rise to the antimalarial drug quinine In 1751 the Spanish Crown asserted control over the production and distribution of this medicament by establishing a royal reserve of fever trees in Quito Through this pilot project the Crown pursued a new vision of imperialism informed by science and invigorated through commerce But ultimately this project failed much like the broader imperial reforms that it represented Drawing on extensive archival research Matthew Crawford explains why showing how indigenous healers laborers merchants colonial officials and creole elites contested European science and thwarted imperial reform by asserting

their authority to speak for the natural world The Andean Wonder Drug uses the story of cinchona bark to demonstrate how the imperial politics of knowledge in the Spanish Atlantic ultimately undermined efforts to transform European science into a tool of empire *Image - Object - Performance* Astrid Windus,Eberhard Crailsheim,2013 Images objects and performances represent essential forms of mediality which frequently escape our traditional understanding of historical communication

This volume discusses from an interdisciplinary perspective the varying structures and media of communication and representation in transcultural spaces of Latin America and the Philippines Based on different topics and methodological approaches of the contributors the articles reflect on the perspectives and problems of the integration of visibility materiality and performance as categories of cultural analysis in historical settings between the sixteenth and nineteenth centuries In that regard both the methodological and regional comparative approaches of this volume claim to contribute beyond the regional focus of the studies to the general debate about cultural theories and to make general statements about the mechanisms of cross cultural communication in cultural contact zones of the modern period

The Language Encounter in the Americas, 1492-1800 Edward G. Gray,Norman Fiering,2001-01-01 When Columbus arrived in the Americas there were it is believed as many as 2 000 distinct mutually unintelligible tongues spoken in the western hemisphere encompassing the entire area from the Arctic Circle to Tierra del Fuego This astonishing fact has generally escaped the attention of historians in part because many of these indigenous languages have since become extinct And yet the burden of overcoming America s language barriers was perhaps the one problem faced by all peoples of the New World in the early modern era African slaves and Native Americans in the Lower Mississippi Valley Jesuit missionaries and Huron speaking peoples in New France Spanish conquistadors and the Aztec rulers All of these groups confronted America s complex linguistic environment and all of them had to devise ways of transcending that environment a problem that arose often with life or death implications For the first time historians anthropologists literature specialists and linguists have come together to reflect in the fifteen original essays presented in this volume on the various modes of contact and communication that took place between the Europeans and the Natives A particularly important aspect of this fascinating collection is the way it demonstrates the interactive nature of the encounter and how Native peoples found ways to shape and adapt imported systems of spoken and written communication to their own spiritual and material needs Food Studies in Latin American Literature Rocío del Aguila,Vanesa Miseres,2021-12-01

Food Studies in Latin American Literature presents a timely collection of essays analyzing a wide array of Latin American narratives through the lens of food studies Topics explored include potato and maize in colonial and contemporary global narratives the role of cooking in Sor Juana In s de la Cruz s poetics the centrality of desire in twentieth century cooking writing by women the relationship among food recipes and national identity the role of food in travel narratives and the impact of advertisements on domestic roles The contributors included here experts in Latin American history literature and cultural studies bring a novel interdisciplinary approach to

these explorations presenting new perspectives on Latin American literature and culture **Philosophy and Literature in Latin America** Jorge J. E. Gracia, 1989-06-01 Philosophy and Literature in Latin America presents a unique and original view of the current state of development in Latin America of two disciplines that are at the core of the humanities Divided into two parts each section explores the contributions of distinguished American and Latin American experts and authors The section on literature includes the literary activities of Latin Americans working in the United States an area in which very little research has been demonstrated and for that reason will add an interesting new dimension to the field of Latin American studies **Spanish Colonial Literature in South America** Bernard Moses, 1922 Incluye mapa de Suramerica After Spanish Rule Mark Thurner, Andrés Guerrero, 2003-11-17 The first collection of essays to make a historically grounded specifically Latin Americanist intervention in postcolonial studies

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
