Cougar The American Lion:

Cougar Kevin Hansen, Mountain Lion Foundation, 1992 Discusses the cougar's way of life **American Lion** R. Timothy Rush, 2015-11-01 Set in the rugged western United States American Lion presents true stories of the majestic North American cougar told by people who experienced the mountain lion up close From the Rock Creek Canyon battle of the killer lion and shepherd dog to the invisible guest in the hay loft these encounters are terrifying heartwarming and at all times as thrilling as the native cats themselves **The Puma, Or American Lion: Felis Concolor of Linæus** Frederick William True, 1891 *Hunting American Lions* Frank C. Hibben, 2011-03-23 The adventure suspense and dangers of hunting American lions as told by a man who has spent ten years tracking cougars jaguars and bob cats up and down the canyons and across the ranges of New Mexico and the Southwest The author learned from an old hermit hunter the secrets of lion hunting went out on special request to trail particular lions that had menaced livestock or ranch houses Here is the progression of the hunt from the picking up of the scent or spoor by the dogs or the location of the victim to the final bagging of the game Hibben ends with a spectacular feat the literal tail grabbing of a lion which he had treed lassoed and brought down alive For the sportsman active or passive participant in the field *Cougar* Maurice Hornocker, Sharon Negri, 2009-12-15 The cougar is one of the most beautiful enigmatic and majestic animals in the Americas Eliciting reverence for its grace and independent nature it also triggers fear when it comes into contact with people pets and livestock or competes for hunters game Mystery myth and misunderstanding surround this remarkable creature The cougar's range once extended from northern Canada to the tip of South America and from the Pacific to the Atlantic making it the most widespread animal in the western hemisphere But overhunting and loss of habitat vastly reduced cougar numbers by the early twentieth century across much of its historical range and today the cougar faces numerous threats as burgeoning human development encroaches on its remaining habitat When Maurice Hornocker began the first long term study of cougars in the Idaho wilderness in 1964 little was known about this large cat Its secretive nature and rarity in the landscape made it difficult to study But his groundbreaking research yielded major insights and was the prelude to further research on this controversial species The capstone to Hornocker's long career studying big cats Cougar is a powerful and practical resource for scientists conservationists and anyone with an interest in large carnivores He and conservationist Sharon Negri bring together the diverse perspectives of twenty two distinguished scientists to provide the fullest account of the cougar's ecology behavior and genetics its role as a top predator and its conservation needs This compilation of recent findings stunning photographs and firsthand accounts of field research unravels the mysteries of this magnificent animal and emphasizes its importance in healthy ecosystem processes and in our lives **Through Cougar's Eyes** David Raber, 2025-10-16 David Raber first saw Cougar when the mountain lion was an eight week old kitten on display locked up in a toaster size cage and poked and prodded by a crowd Raber took him out held him and just couldn't put him back He made four promises that day one no more

petting out of respect for Cougar two no more cages three he would educate the public against exotic animal ownership and four he would make Cougar happy and this has become a twenty four hours a day learning process and a duty that he adores Being the only large cat in the country who is federally licensed without a cage Cougar strides down streets roams hotel lobbies enters competitions and even films a Puma Sportswear ad with several Olympic gold medalists As the official poster model for the Iams pet food company Cougar has been seen by millions Together Raber and Cougar are a team and in this book Raber recounts their many adventures He teaches Cougar about elevators switches and doors while saving him from bullets and speeding cars and Cougar teaches him about deer opossum and squirrels while rescuing him from alligators and raging rivers In helping each other they share their weaknesses and become strong Beautiful and touching entertaining and provocative Through Cougar s Eyes is a love story that dispels the prevalent and presumptuous thinking that mankind and wildlife can t get along This true story depicts sacrifice and dedication with a message relating well to animals can set you both free

Ghostwalker Leslie Patten,2024-10 Leslie Patten had seen grizzly bears wolves coyotes deer elk and many other species in her years living next to Yellowstone National Park Yet like most visitors she had never seen a mountain lion the charismatic yet enigmatic predator also known as a cougar panther or puma She had only detected their ethereal presence on the landscape which left her pondering where they were and what they were up to After five years through her serendipitous encounters with their tracks and scat the burning question remained What is the essence of the mountain lion To understand an animal no one sees Patten conducted more than one hundred interviews with biologists conservation groups state wildlife managers houndsmen and professional trackers Slowly a picture of the lion s elusive nature emerged Ghostwalker presents a complete picture of mountain lions in the West today uncovering the intimacies of their secretive lifestyle as well as the issues they face in our changing world
