Michael L DeLibero,2016 Various industry needs such as electric vehicles and defibrillators are requiring capacitors with a high energy and power density that can operate in the presence of a DC bias in the 100s of volts Researchers have been developing technologies such as electrochemical capacitors for lower voltages and Titanium based capacitors for the higher voltage applications A critical step in this development is the characterization of the capacitors operating with a high DC bias This thesis outlines a practical method to characterize a capacitor of up to tens of microfards with a DC bias up to 500 volts A circuit has been designed to characterize a capacitor through discharge curves and a swept frequency analysis of the impedance It has a frequency range of 100Hz 100kHz a DC bias range of 0 500V and an AC signal amplitude range of 0 5V An iterative regression analysis has been developed to fit measured data to a multi term capacitor model Simulated data has been generated using Muratas 34 term model for a ceramic capacitor and fit to a six term model which incorporates dielectric absorption leakage and resistance The accuracy of the fit to the data is largely determined by the number of parameters in the capacitor model and typically has the greatest relative error near resonance The six term model fit the simulated data within 20 for the magnitude of the impedance and within 2 for the phase of the impedance The relative error outside of a single peak in the phase plot stays well below 5%

Thank you certainly much for downloading **Ceramic Capacitor 1j100 Data**. Most likely you have knowledge that, people have look numerous times for their favorite books as soon as this Ceramic Capacitor 1j100 Data, but end occurring in harmful downloads.

Rather than enjoying a fine ebook taking into consideration a cup of coffee in the afternoon, otherwise they juggled gone some harmful virus inside their computer. **Ceramic Capacitor 1j100 Data** is welcoming in our digital library an online admission to it is set as public suitably you can download it instantly. Our digital library saves in merged countries, allowing you to acquire the most less latency times to download any of our books gone this one. Merely said, the Ceramic Capacitor 1j100 Data is universally compatible later than any devices to read.
