Celestial Lancets Rationale Acupuncture Institute:

Celestial Lancets Gwei-Djen Lu, Joseph Needham, 2012-11-12 Using modern knowledge to shed light on ancient techniques this text examines two of the earliest therapeutic techniques of Chinese medicine acupuncture and moxibustion. Acupuncture is the implantation of very thin needles into subcutaneous connective tissue and muscle at a great number of different points on the body's surface. Moxibustion is the burning of Artemisia tinder moxa either directly on the skin or just above it. For 2500 years the Chinese have used both techniques to relieve pain and to heal a wide variety of illnesses and malfunctions. Providing a full historical account of acupuncture and moxibustion in the theoretical structure of Chinese medicine. Doctors Lu and Needham combine it with a rationale of the two techniques in the light of modern scientific knowledge.

Early Chinese Mysticism Livia Kohn, 2020-10-06. Did Chinese mysticism vanish after its first appearance in ancient Taoist philosophy to surface only after a thousand years had passed when the Chinese had adapted Buddhism to their own culture? This first integrated survey of the mystical dimension of Taoism disputes the commonly accepted idea of such a hiatus. Covering the period from the Daode jing to the end of the Tang, Livia Kohn reveals an often misunderstood Chinese mystical tradition that continued through the ages. Influenced by but ultimately independent of Buddhism, it took forms more various than the quietistic withdrawal of Laozi or the sudden enlightenment of the Chan Buddhists. On the basis of a new theoretical evaluation of mysticism, this study analyzes the relationship between philosophical and religious Taoism and between Buddhism and the native Chinese tradition. Kohn shows how the quietistic and socially oriented Daode jing was combined with the ecstatic and individualistic mysticism of the Zhuangzi with immortality beliefs and practices and with Buddhist insight, meditation, mind analysis and doctrines of karma and retribution.

She goes on to demonstrate that Chinese mysticism a complex synthesis by the late Six Dynasties reached its zenith in the Tang laying the foundations for later developments in the Song traditions of Inner Alchemy Chan Buddhism and Neo Confucianism The Twelve Elements William Wadsworth,2022-06-08 No Available information at this time Author will provide once available Handbook of Mind-Body Medicine for Primary Care Donald Moss,2003 Emphasizing the concepts and technologies of clinical psychophysiology in providing an evidence based empirical approach to problems of patients in primary care medicine this text has a bio psychosocial perspective Body Maps Lan A.
