Building a Winning Culture In Government Patrick R. Leddin, Shawn D. Moon, Patrick Leddin, 2018-04-15 The strategic consultant and author of Talent Unleashed presents a revolutionary blueprint for organizational success in government Today s government organizations face political fallout media scrutiny reduced funding and the challenges of motivating large highly regulated organizations In many offices these challenges have led to a vicious cycle of employee disengagement As performance declines scrutiny increases and employee paralysis sets in Breaking this cycle requires a new approach As an Executive Vice President at Franklin Covey Patrick Leddin helped organizations all over the world transform their culture and unleash their potential with five highly effective practices In Building a Winning Culture in Government he shows how government organizations can implement these same practices to inspire their employees revitalize engagement and become more responsive to the public interest In Building a Winning Culture in Government you will learn to Lead with purpose and find your organization s mission mantra or manifesto Make the 7 Habits of Highly Successful People your organization s operating system Inspire people to go beyond your expectations Build trust within the organization and with the public Create loyalty with all stakeholders

The Future of Leadership Michael A Genovese, 2015-07-24 The Future of Leadership considers how the rapid changes of today will affect the leaders of tomorrow Renowned Leadership scholar Michael A Genovese argues that one of the key challenges for future leaders will be to effectively and constructively manage

the hyper change taking place both within organizations and in the broader social and political spheres Taking a Futures Studies approach to envision the state of leadership in the coming decades Genovese also provides case studies of leaders who have already demonstrated the mind and skill sets necessary to successfully manage rapid change **America's Moment** Rework America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America s Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone *Politics Recoded* Aure Schrock,2024-09-24 The first detailed history of Code for America that examines how democratically designed government systems can collectively improve technology s impact on society For decades tens of thousands of volunteers and employees of Code for America have taken a different path to institutional change through designing and implementing infrastructure In *Politics Recoded* Aure Schrock employs a robust organizational ethnography to analyze how Code for America s infrastructural organizing changed how politics get exercised showing how we citizens can work directly with the government on projects to improve our collective livelihoods Drawing from theories of organizing social infrastructure racialized organizations technical cultures and intersectionality Schrock argues that our post techlash society must no longer presume that corporate platforms or social networks can level social inequities An underrecognized yet influential organization Code for America emerged from a tech culture background that prioritized networks and publicity over the long slow work of institutional change But its evolution demonstrates how to push beyond the fundamental flaws of tech forward organizing This the first history of Code for America shows how promoting agentic citizenship and brokering in empathy let

the organization influence policy at all levels of government and demonstrates why we need to bolster institutions to ensure that everyone is justly represented and receiving the benefits

Appealing to those in political science communication and information studies Politics Recoded will empower practitioners and activists to revolutionize technological design and participate in alternative forms of civic engagement

If Mayors Ruled the World Benjamin R. Barber, 2013-11-05 In the face of the most perilous challenges of our time climate change terrorism poverty and trafficking of drugs guns and people the nations of the world seem paralyzed The problems are too big for governments to deal with Benjamin Barber contends that cities and the mayors who run them can do and are doing a better job than nations He cites the unique qualities cities worldwide share pragmatism civic trust participation indifference to borders and sovereignty and a democratic penchant for networking creativity innovation and cooperation He demonstrates how city mayors singly and jointly are responding to transnational problems more effectively than nation states mired in ideological infighting and sovereign rivalries The book features profiles of a dozen mayors around the world making a persuasive case that the city is democracy's best hope in a globalizing world and that great mayors are already proving that this is so
