The China Clipper, Pan American Airways and Popular Culture Larry Weirather, 2006-11-13 The Pan American clipper ships of the 1930s and 1940s were technological marvels of their time The years before World War II found the United States faced with international challenges of an economic as well as a military nature Aided by government regulations and contracts the Pan Am Clippers were for a time the only international craft to carry the U S flag Commercially they rivaled the comfort and popularity of passenger trains and luxurious cruise ships Militarily they were unmatched by anything the Germans Russians Italians or French could produce The only long range aircraft capable of carrying transoceanic payloads Clippers became instantly valuable with the onset of the war Marketed as the ultimate in commercial or military airfare these flying boats became as much an American icon as the Pan Am logo itself From the movie screen to the bookshelf this volume examines the multitude of ways in which the values inherent in Pan American Airways clipper ships played out in popular culture The book discusses the strategies Pan Am used to represent the clipper as a paragon of U S interests values and beliefs Mirroring the moods of the times the clipper became a consistent American icon being associated with the Statue of Liberty and the American eagle The main focus of the work is the variety of ways in which this iconographic status manifested itself through toys movies pulp fiction comic books and music Clipper influence is also examined in other unlikely places such as the name of an available car color car models restaurant menus and lounge names An appendix explains different models of the clipper flying boats [Empire of the Air](#) Jenifer Van Vleck, 2013-11-01 Jenifer Van Vleck's *Empire of the Air* reveals the central role commercial aviation played in the U S ascent to global preeminence in the twentieth century as the federal government partnered with the aviation industry to deliver American power across the globe and sell the idea of the American Century to the public at home and abroad *Food and Aviation in the Twentieth Century* Bryce Evans, 2020-12-10 Established by New York stockbroker Juan Trippe in 1927 the story of Pan Am is the story of US led globalisation and imperial expansion in the twentieth century with the airline achieving the vast majority of firsts in aviation history pioneering transoceanic travel and new technologies and all but creating the glitz style and ambience eulogised in Frank Sinatra's *Come Fly with Me* Bryce Evans investigates an aspect of the airline service that was central to the company's success its food a gourmet glamour underpinned by both serious science and attention to the detail of fine dining culture Modelled on the elite dining experience of the great ocean liners the first transatlantic and transpacific flights featured formal thirteen course dinners served in art deco cabins and served by waiters in white waist length jackets and garrison hats As flight times got faster and altitudes higher Pan Am

pioneered the design of hot food galleys and commissioned research into how altitude and pressure affected taste buds amending menus accordingly A tale of collaboration with chefs from the best Parisian restaurants and the wining and dining of politicians and film stars the book also documents what food service was like for flight attendants exploring how the golden age of airline dining was underpinned by a racist and sexist culture Written accessibly and with an eye for the glamour and razzamatazz of public aviation history Bryce Evans research into Pan Am airways will be valuable for scholars of food studies and aviation consumer tourism transport and 20th century American history [Taking Flight](#) M. Houston Johnson,2019-02-21 Taking Flight explores the emergence of commercial aviation between the world wars and in the midst of the Great Depression to show that the industry s dramatic growth resulted from a unique combination of federal policy technological innovations and public interest in air travel Historian M Houston Johnson V traces the evolution of commercial flying from the US Army s trial airmail service in the spring of 1918 to the passage of the pivotal Air Commerce Act of 1938 Johnson emphasizes the role of federal policy particularly as guided by both Herbert Hoover and Franklin Roosevelt to reveal the close working relationship between federal officials and industry leaders as well as an increasing dependence on federal assistance by airline airframe and engine manufacturers Taking Flight highlights the federal government s successful efforts to foster a nascent industry in the midst of an economic crisis without resorting to nationalization a path taken by virtually all European countries during the same era It also underscores an important point of continuity between Hoover s policies and Roosevelt s New Deal a sharp departure from many interpretations of Depression era business history and shows how both governmental and corporate actors were able to harness America s ongoing fascination with flying to further a larger economic agenda and facilitate the creation of the world s largest and most efficient commercial aviation industry This glimpse into the golden age of flight contributes not only to the history of aviation but also to the larger history of the United States during the Great Depression and the period between the world wars **Perceptions of East Asian and Asian**

North American Athletics Steve Bien-Aimé,Cynthia Wang,2022-09-27 This book highlights inconsistencies within the field of sports scholarship and provides an opportunity to open up and extend conversations about the intersection of sports media and race particularly surrounding athletes of East Asian descent Despite the growing influence of East Asian and Asian American Canadian athletes they are still underrepresented in Western media and in scholarship This anthology adds much needed literature to sports popular culture East Asian and Asian American studies The prominence of sports in global popular culture makes the intersections explored in this collection a crucial addition to existing conversations about both sports and East Asian Asian American Canadian studies [Air & Space Smithsonian](#) ,2007-05 *Realizing the Dream of Flight* Virginia Parker Dawson,Mark D. Bowles,2005 **Realizing the Dream of Flight** National Aeronautics and Space Administration,2005-12-31 These essays in celebration of the Wright brothers first flight 100 years ago grew out of presentations by a group of prominent scholars in 2003 at a conference sponsored by the NASA History Division and held at

the Great Lakes Science Center in Cleveland Ohio The volume focuses on the careers of some of the many men and women who helped to realize the dream of flight both through the atmosphere and beyond These accounts are original and compelling because they examine the history of flight through the lens of biography *American Book Publishing Record*,2006
