Creatures Born War Battle Fatigue:

Creatures Born of War: A Novel about the World Wars, Shell Shock & Battle Fatigue Bruce Wm Taneski, 2015-11-27 In World War I it was Shell Shock Then they called it Battle Fatigue in World War II Today it is Post Traumatic Stress Disorder or PTSD Irish Catholic families of New York City are sending their sons to France to fight in WWI They will not return as they were Changed and broken men will return instead The creature that lives within them will affect not only their family and friends it will affect the next generation serving in WWII as well This is the story of their creatures You may have a creature of your own Find out why you do

An Odyssey with Animals Adrian R. Morrison, 2009-06-25 The relationship between animals and humans is more complex today than ever before In addition to the animals that have served as household pets and the farm animals that have provided labor and food countless monkeys rabbits rats and cats have enabled modern scientists to treat and cure humanity's most devastating illnesses This aspect of animal human interaction has engendered a bitter enmity between animal rights activists and the biomedical researchers whose work depends on the use and oftentimes the killing of laboratory animals In *An Odyssey with Animals* veterinarian and sleep researcher Adrian Morrison argues that humane animal use in biomedical research is an indispensable tool of medical science and that efforts to halt such use constitute a grave threat to human health and wellbeing The target of repeated acts of intimidation by anonymous animal rights activists because of his own research Morrison is himself an animal advocate and this volume is the culmination of his years spent negotiating the treacherous divide between a legitimate concern for animals and the importance of biomedical research Drawing on the disciplines of philosophy history biology and animal behavior Morrison crafts a multi faceted argument in favor of using animals humanely in research the center of which is his staunch belief that human interests must be the primary concern of science and society Along the way Morrison delves into other human uses of animals in domains such as agriculture hunting and education examining each use along with its philosophical moral and ecological implications The result is a thought provoking intelligent and fair minded discussion of a charged subject of the past and present of animals relationships with humans and how and why we should be able to use them as we do

Valor of Many Stripes Scott Baron, 2019-02-04 The award of a military decoration does not define valor it only recognizes it Many acts of notable courage and self sacrifice occur on the battlefield but are often obscured in the fog of battle or lost to history unrecognized and unheralded The largely overlooked men and women in this volume did incredible things in dire circumstances Although in some cases decorations were awarded including several Medals of Honor their stories remain unknown

War, Science and Terrorism Dr J Richardson, 2012-12-06 Describes the application of research to the evolution of weapons It shows how natural engineering information and environmental sciences are exploited how even social science is applied to recruitment battlefield and logistical management and careful preparation of terroristic acts
