

The background of the entire image is a deep space scene. At the top, a large, reddish-brown planet with visible surface details like craters and clouds is partially visible. Below it, a bright sun or star is positioned, creating a strong lens flare effect that spreads across the upper half of the image. The rest of the background is a dark, star-filled void.

Desert World Rebirth:

Desert World Allegiances Lyn Gala, 2015-03-31 Desert World Book One Livre once offered Planetary Alliance miners and workers a small fortune if they helped terraform the mineral rich planet People flocked to the world but then a civil war cut the desert planet off from all resources Half terraformed and clinging to the edge of existence Livre devolved into a world where death was accepted as part of life water resources were scarce and constantly dwindling and neighbors tried to help each other hold off the inevitable as the desert fought to take back the few terraformed spaces Tamar Gazer claims to be the victim of water theft His claims could be a simple misdirection intended to help him escape a term of labor after his criminal prank caused irreparable damage to a watering system However as the only member of the council arguing against a short term slavery sentence for Tamar Shan Polli can't escape the fear that something darker is happening The more he investigates Tamar's story the more he finds that his world is not as free of politics or danger as he had assumed Together Shan and Tamar must get to the bottom of the conspiracy before time runs out for the entire planet

Purpose in the Universe Tim Mulgan, 2015-10-22 Two familiar worldviews dominate Western philosophy materialist atheism and the benevolent God of the Abrahamic faiths Tim Mulgan explores a third way Ananthropocentric Purposivism claims that there is a cosmic purpose but human beings are irrelevant to it Purpose in the Universe develops a philosophical case for Ananthropocentric Purposivism that it is at least as strong as the case for either theism or atheism The book borrows traditional theist arguments to defend a cosmic purpose These include cosmological teleological ontological meta ethical and mystical arguments It then borrows traditional atheist arguments to reject a human centred purpose These include arguments based on evil diversity and the scale of the universe Mulgan also highlights connections between morality and metaphysics arguing that evaluative premises play a crucial and underappreciated role in metaphysical debates about the existence of God and Ananthropocentric Purposivism mutually supports an austere consequentialist morality based on objective values He concludes that by drawing on a range of secular and religious ethical traditions a non human centred cosmic purpose can ground a distinctive human morality Our moral practices our view of the moral universe and our moral theory are all transformed if we shift from the familiar choice between a universe without meaning and a universe where humans matter to the less self aggrandising thought that while it is about something the universe is not about us

Klystar Leong Ying, 2007-12 What if the fundamental laws of thermodynamics could be used to prove the existence of a parallel universe a twined realm where a single omnipotent consciousness is bonded by a force akin to love There was a philosophical time in our humanity when religion and science were inseparable but rivalry and discord has since driven a great argumentative chasm between the two Author Leong Ying takes readers into this fascinating world following a young man Leo on his quest to discover his own origins and learn the truths of the universe Klystar is a gripping fable encompassing a bold scientific theory intended to bring healing to our conflicting souls Readers will be captivated by Ying's detailed world of

the future its connections to the past learning with Leo that the proof is in the numbers and the meaning is in the words

Faith Moves Mountains Sage Earthkeeper, AI, 2025-02-27 Faith Moves Mountains offers a compelling interdisciplinary exploration bridging Biblical Studies and Earth Sciences to examine the profound connection between faith and the natural world It investigates how the biblical metaphor of moving mountains reflects an ancient awareness of the earth's dynamic geological forces specifically tectonic shifts The book uniquely interprets biblical texts through a geological lens providing a novel scientific approach to understanding religious symbolism The study presents evidence from detailed analyses of biblical texts and geological data on Middle Eastern tectonic activity By cross referencing mentions of mountains and earth shaking events in the Bible with tectonic plate data the book argues this metaphor isn't just spiritual symbolism but an expression of human understanding of powerful geological transformations The book progresses by introducing core concepts of biblical metaphor and tectonic theory then develops themes including the geological context of biblical lands and the impact of natural events on ancient spiritual lives This approach offers a fresh perspective challenging conventional interpretations and enriching our comprehension of the interplay between nature culture and belief It's valuable for those seeking a deeper understanding of the symbolic language of the Bible and the relationship between religious beliefs and the natural world potentially informing contemporary discussions about environmental stewardship and the interpretation of sacred spaces

Desert Patriarchy Janet Bennion, 2004-05 On the high desert plateau of northern Mexico outsiders have taken refuge from the secular world Here three Anglo communities of Mormons and Mennonites have ordered their lives around male supremacy rigid religious duty and a rejection of modern technology and culture In so doing they have successfully adapted to this harsh desert environment Janet Bennion has lived and worked among these people and in this book she introduces a new paradigm desert patriarchy to explain their way of life This perspective sheds light not only on these particular communities but also on the role of the desert environment in the development and maintenance of fundamentalist ideology in other parts of the United States and around the globe Making new connections between the arid environment opposition to technology and gender ideology Bennion shows that it is the interplay of the desert and the unique social traditions and gender dynamics embedded in Anglo patriarchal fundamentalism that accounts for the successful longevity of the Mexican colonies Her model defines the process by which male supremacy female autonomous networking and religious fundamentalism all facilitate successful adaptation to the environment More than a theoretical analysis Desert Patriarchy provides an intimate glimpse into the daily lives of these people showing how they have taken refuge in the desert

to escape religious persecution the forced secular education of their children and economic and political marginalization It particularly sheds light on the ironic autonomy of women within a patriarchal system showing how fundamentalist women in Chihuahua are finding numerous creative ways to access power and satisfaction in a society structured to subordinate and even degrade them Desert Patriarchy richly expands the literature on nontraditional religious movements as it enhances our understanding of how environment can shape society It offers unique insights into women s status in patriarchal communities and provides a new way of looking at similar communities worldwide *Desert in Modern Literature and Philosophy* Aidan Tynan,2020-06-18 Aidan explores the ways in which Nietzsche s warning that the desert grows has been taken up by Heidegger Derrida and Deleuze in their critiques of modernity and the desert in literature ranging from T S Eliot to Don DeLillo from imperial travel writing to postmodernism and from the Old Testament to salvagepunk Two Questers in the Twentieth-century North Africa Imen Ayari Cozzo,2016-09-23 This book offers a unique exploration of the work of Paul Bowles and Ibrahim Alkoni and reveals timely insights into the relationship between the West and the Orient showing that they both challenge and extend existing scholarship on this subject It builds on a sound theoretical platform which serves as a solid foundation for the analysis of the overarching theme Theories of place representation Orientalism and post colonialism are discussed in depth and are linked to the deconstruction and analysis of the selected literary texts helping the reader understand the various quests and motivations of the protagonists of the works of Bowles and Alkoni The first part of the book looks into the work of Bowles and is based on the fact that many of the author s texts revolve around the theme of encounters between Western and Eastern cultures It adopts a specific focus on the North African space which is depicted from a number of different points of view including native French English and American perspectives The second section discusses the work of the Libyan author Ibrahim Alkoni as a quester for a Mythical Identity It introduces the reader to the significance of the desert in both classical and modern Arabic literature and its place in the Arabic cultural imaginary This work is highly original both in its approach and subject matter and as such it constitutes a valuable contribution to the study of comparative literature Arabic literature and postcolonial magical realist literature It offers many original insights into this little studied field demonstrating a successful venture into less trodden terrain Edge of Taos Desert Mabel Dodge Luhan,1987-04-01 In 1917 Mabel Sterne patron of the arts and spokeswoman for the New York avant garde came to the Southwest seeking a new life This autobiographical account long out of print of her first few months in New Mexico is a remarkable description of an Easterner s journey to the American West It is also a great story of personal and philosophical transformation The geography of New Mexico and the culture of the Pueblo Indians opened a new world for Mabel She settled in Taos immediately and lived there the rest of her life Much of this book describes her growing fascination with Antonio Luhan of Taos Pueblo whom she subsequently married Her descriptions of the appeal of primitive New Mexico to a world weary New Yorker are still fresh and moving I finished it in a state of amazed revelation it is so beautifully compact

and consistent It is going to help many another woman and man to take life with the talons and carry it high Ansel Adams
