The chapters make the target articles more accessible by providing background, modernizing the notation, providing critical commentary explaining the afterlife of the proposals and offering a useful bibliography for further study. The chapters were commissioned by the series editors to mark the 100th volume in the book series *Studies in Linguistics and Philosophy*. The target articles are amongst the most widely read and cited papers up to the end of the 20th century and cover most of the important subfields of formal semantics. The authors are all prominent researchers in the field, making this volume a valuable addition to the literature for researchers, students and teachers of formal semantics. Quentin Blake *Teachers' Monographs*, 1913 **The 4 A's of Marketing** Jagdish Sheth, Rajendra Sisodia, 2012-04-23 The authors present a powerful and tested approach that helps managers see a business's every action through the eyes of its customers. This approach is organized around the values that matter most to customers: Acceptability, Affordability, Accessibility, and Awareness. Taken together, these attributes are called the 4A's. The 4A framework derives from a customer value perspective based on the four distinct roles that customers play in the market: seekers, selectors, payers, and users. For a marketing campaign to succeed, it must achieve high marks on all four A's using a blend of marketing and non-marketing resources. The 4A framework helps companies create value for customers by identifying exactly what they want and need, as well as by uncovering new wants and needs. For example, none of us knew we needed an iPad until Apple created it. That means not only

ensuring that customers are aware of the product but also ensuring that the product is affordable accessible and acceptable to them Throughout this book the authors demonstrate how looking at the world through the 4A lens helps companies avoid marketing myopia an excessive focus on the product as well as managerial myopia an excessive focus on process In fact it is a powerful way to operationalize the marketing concept it enables managers to look at the world through the customer s eyes This ability has become an absolute necessity for success in today s hyper competitive marketplace **Classic Concepts and New Directions** Lon D. Hancock, 2013-10-16 This guide s 14 chapters which span the Rocky Mountain region s 1 7 billion year history give a retrospective glimpse of early geologic ideas being forged bring the latest mapping and analytical results from classic locations and introduce techniques that will form the bedrock of our geologic understanding in the years to come
