List, 2022-02-01 NATIONAL BESTSELLER A leading economist answers one of today's trickiest questions Why do some great ideas make it big while others fail to take off Brilliant practical and grounded in the very latest research this is by far the best book I've ever read on the how and why of scaling Angela Duckworth CEO of Character Lab and New York Times bestselling author of Grit LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD Scale has become a favored buzzword in the startup world But scale isn't just about accumulating more users or capturing more market share It's about whether an idea that takes hold in a small group can do the same in a much larger one whether you're growing a small business rolling out a diversity and inclusion program or delivering billions of doses of a vaccine Translating an idea into widespread impact says University of Chicago economist John A. List depends on one thing only whether it can achieve high voltage the ability to be replicated at scale In The Voltage Effect List explains that scalable ideas share a common set of attributes while any number of attributes can doom an unscalable idea Drawing on his original research as well as fascinating examples from the realms of business policymaking education and public health he identifies five measurable vital signs that a scalable idea must possess and offers proven strategies for avoiding voltage drops and engineering voltage gains You'll learn How celebrity chef Jamie Oliver expanded his restaurant empire by focusing on scalable ingredients until it collapsed because talent doesn't scale Why the failure to detect false positives early on caused the Reagan era drug prevention program to backfire at scale How governments could deliver more services to more citizens if they focused on the last dollar spent How one education center leveraged positive spillovers to narrow the achievement gap across the entire community Why the right set of incentives applied at scale can boost voter turnout increase clean energy use encourage patients to consistently take their prescribed medication and more By understanding the science of scaling we can drive change in our schools workplaces communities and society at large Because a better world can only be built at scale *Koreatown: A Cookbook* Deuki Hong, Matt Rodbard, 2024-04-23 JAMES BEARD AWARD FINALIST A vibrant exploration of Korean cuisine both in Korea and in Koreatowns around the globe with more than 75 bold flavor-packed recipes and stunning photography from the New York Times bestselling authors of Koreatown The wide range of modern Korean food is on display in this fascinating book that is as electric sumptuous and diverse as the cuisine it portrays Edward Lee chef and author of *Bourbon Land* A BEST COOKBOOK OF THE YEAR The New York Times The Boston Globe Los Angeles Times Food Wine Eater Wired Join chef Deuki Hong and journalist Matt Rodbard as they take an insider's look at the exciting evolution of Korean food through stories of chefs and home cooks as well as recipes that are shaping modern Korean cuisine including sweet spicy barbecue creative rice and seafood dishes flavor-bombed stews and KPOP-fueled street food In Koreatown Deuki and Matt explored the foods of Korean
