Counter Terrorism Policing Community Cohesion And Security:

Counter-Terrorism Policing Sharon Pickering, Jude McCulloch, David Wright-Neville, 2008-01-01 Counter Terrorism Policing examines the impact of terrorism on the policing organisation and culturally diverse communities This book is the first of its kind to contextualise counter terrorism policing in a conceptual framework and takes account of the unique challenge of the increasing cosmopolitan character of major cities Based on detailed documentary and ethnographic research it holds significant lessons for cosmopolitan cities around the world Traces of Terror Victoria Sentas, 2014 Extremism, Counter-terrorism and Policing Brian Blakemore, 2016-04-15 Extremism Counter terrorism and Policing brings together a diverse range of multidisciplinary studies to explore the extent of extremism and how communities are policed Through analysing the historical development the present situation and future trends in the forms and ability to police violent extremism and terrorism this text provides a detailed contribution towards both academic and policy debate surrounding extremism its causes and treatments With chapters written by experts in their fields this book provides the reader with detailed definitions of extremism the psychology of extremists and the causes of radicalisation policing extremism within a counter terrorism context community policing approaches to combating extremism the legal frameworks and legislation regarding extremism and its limitations in an international setting and public perceptions and understanding of extremism It is crucial for policing professionals policy makers and academics to have a detailed understanding of government policy and the methods towards tackling extremism from a policing and community level Extremism Counter terrorism and Policing gives a policing rationale alongside specific community approaches towards tackling extremist threats and provides key details for policy readers as well as academics **Communities and Counterterrorism** Basia Spalek, Douglas Weeks, 2020-06-29 This book highlights a wide range of community related counterterrorism initiatives undertaken in England Northern Ireland and Australia The book continues established scholarship in terrorism studies about the importance of considering communities when understanding responding to and preventing politically religiously and other ideologically motivated violence Terrorists are in competition with communities and sociopolitical religious movements for proactive and passive support for their causes membership and resources The book is particularly relevant in the aftermath of a series of jihadist terror attacks alongside terror acts committed by far right extremists There has been an increased emphasis upon the role of communities in combatting terrorism with Communities can defeat terrorism becoming a well known mantra This book was originally published as a special issue of Studies in Conflict Terrorism **Regulating Preventive Justice** Tamara Tulich, Rebecca Ananian-Welsh, Simon Bronitt, Sarah Murray, 2017-01-20 Like medicine law is replete with axioms of prevention Prevention is better than cure has a long pedigree in both fields 17th century jurist Sir Edward Coke observed that preventing justice excelleth punishing justice A century later Sir William Blackstone similarly stated that preventive justice is preferable in all respects to punishing justice This book evaluates the feasibility and

legitimacy of state attempts to regulate prevention Though prevention may be desirable as a matter of policy questions are inevitably raised as to its limits and legitimacy specifically how society reconciles the desirability of averting risks of future harm with respect for the rule of law procedural fairness and human rights While these are not new questions for legal scholars they have been brought into sharper relief in policy and academic circles in the wake of the September 11 terrorist attacks Over the past 15 years a body of legal scholarship has tracked the intensified preventive focus of anti terrorism law and policy observing how this focus has impacted negatively upon traditional legal frameworks However preventive law and policy in other contexts such as environmental protection mental health immigration and corruption has not received sustained focus This book extends that body of scholarship through use of case studies from these diverse regulatory settings in order to examine and critique the principles policies and paradoxes of preventive justice Whereas earlier scholars looked upon preventive justice as a source and means of regulation the powerfully argued contributions to this volume provide forceful reasons to consider whether we would do better talk about regulating preventive justice Professor Lucia Zedner Oxford University *Routledge Handbook of Law and Terrorism* Genevieve Lennon, Clive Walker, 2015-07-16 In the years since 9 11 counter terrorism law and policy has proliferated across the world This handbook comprehensively surveys how the law has been deployed in all aspects of counter terrorism It provides an authoritative and critical analysis of counter terrorism laws in domestic jurisdictions taking a comparative approach to a range of jurisdictions especially the UK the US Australia Canada and Europe The contributions to the book are written by experts in the field of terrorism law and policy allowing for discussion of a wide range of regulatory responses and strategies of governance The book is divided into four parts reflective of established counter terrorism strategic approaches and covers key themes such as Policing and special powers including surveillance Criminal offences and court processes Prevention of radicalisation and manifestations of extremism Protective preparative security The penology of terrorism In addressing counter terrorism laws across a broad range of topics and jurisdictions the handbook will be of great interest and use to researchers students and practitioners in criminal law counter terrorism and security studies The Policing of Terrorism Mathieu Deflem, 2010-02-10 This book offers an analysis of the policing of terrorism in a variety of national and international contexts Centered on developments since the events of September 11 2001 the study devotes its empirical attention to important police aspects of counter terrorism in the United States and additionally extends its range comparatively to other nations including Israel and Iraq and to the global level of international police organizations such as Interpol and Europol Situated in the criminology of terrorism and counter terrorism this book offers a fascinating look into the contemporary organization of law enforcement against terrorism which will significantly influence the conditions of global security in the foreseeable future **Pre-crime** Jude McCulloch, Dean Wilson, 2015-07-24 Pre crime aims to pre empt would be criminals and predict future crime Although the term is borrowed from science fiction the drive to predict and pre empt crime is a present day reality This book critically

explores this major twenty first century development in crime and justice This first in depth study of pre crime defines and describes different types of pre crime and compares it to traditional post crime and crime risk approaches It analyses the rationales that underpin pre crime as a response to threats particularly terrorism and shows how it is spreading to other areas It also underlines the historical continuities that prefigure the emergence of pre crime as well as exploring the new technologies and forms of surveillance that claim the ability to predict crime and identify future criminals Through the use of examples and case studies it provides insights into how pre crime generates the crimes it purports to counter providing compelling evidence of the problems that arise when we act as if we know the future and aim to control it through punishing disrupting or incapacitating those we predict might commit future crimes Drawing on literature from criminology law international relations security and globalization studies this book sets out a coherent framework for the continued study of pre crime and addresses key issues such as terminology its links to past practises its likely future trajectories and its impact on security crime and justice It is essential reading for academics and students in security studies criminology counter terrorism surveillance policing and law as well as practitioners and professionals in these fields

Teaching Police Officers Fairness Brandon Langley, Barak Ariel, 2024-11-18 This book explores the growing body of research associated with police legitimacy It reports on a systematic review to trace evaluate and synthesize all the results of published police procedural justice training tests Further the volume explores for the first time the theoretical relationship between training on procedural justice and both officer self legitimacy and audience legitimacy as outcomes within the context of counterterrorism policing It evaluates a number of key topics including The effect of police officers higher levels of self legitimacy on how they conduct themselves The design implementation and management of a national test examining the effect of a bespoke procedural justice training package aimed at stimulating officers inner confidence Audience legitimacy scores in the sensitive world of counterterrorism policing The chapters that follow explore legitimacy theory procedural justice and the lesser known self legitimacy component This volume is ideal for law enforcement professionals policymakers criminal justice practitioners and researchers involved in combating terrorism and improving police legitimacy

Human Factors in Effective Counter-Terrorism Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter terrorist

measures Where military practitioners also discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general
